ROGERS ADVISES TALLEY TO CHANGE MIND ABOUT FARM

(Special To The News)
BOSTON, April 18.—You girls certainly got to act up early in the morning if you want to marry Babe Ruth. Hollywood wouldn't even get up that early for a divorce.

Hoover called congress to aid farm relief and up to now there has been 1,027 bills introduced. One was for farm relief, and 1,026 to aid the members that introduced 'em.

I am sorry that Marion Talley didn't wait a few days till she had read that message. I hope it's not too late even now to reconsider.

Just had a visit in my dressing room with Mr. Stearns, Mr. Coolidge's good friend. He's an awful nice fellow. He had just took out a policy in Mr. Coolidge's company.

Yours,
WILL.

Omaha Detectives To Probe
Campbell's Possible Con-
nection With Case

(International News Service)
ELIZABETH, N. J., April 18.—Henry Colin Campbell, silver haired torch slayer, bogus doctor and love philanderer, sulked in his cell in Union County jail today, defiantly awaiting the coming of Omaha detectives who seek to link him with the brutal ax-murder of Miss Ada Swanson in 1925.

Miss Swanson, a maid in the household of Joseph Sykes, secretary of the Union Pacific railroad in Omaha, was found hacked to death in May, four years ago. The murderer was never apprehended.

In Sullen Silence
Campbell, who has confessed to making a gruesome funeral pyre of the body of Mrs. Mildred Mowry of Greenville, Pa., after shooting her to death, lapsed into sullen silence when questioned concerning the Swanson slaying. He admitted having been in Omaha, however, but insisted his last visit there took place in 1912.

Opposed to this were dispatches from the Nebraska city, stating Campbell had, in fact, been discharged by the Union Pacific therein 1914 but had made several visits there since that time.

Young Wife Agitated
Campbell was visited by his wife, Mrs. Rosalee Campbell, in his cell yesterday. Although the confessed slayer maintained a calm demeanor, his young wife became greatly agitated, clinging to him and sobbing "I love you and will stick by you no matter what you have done."

Authorities are awaiting the results of police investigations in other cities throughout the country as the result of Campbell's confession that he had "married" five other women but was unaware of the present whereabouts of any of the five.

East Side Branch
Of Library To Be
Opened On May 1

New Branch Housing 1500
Books Will Be Located
At Beckford And
Washington

WILL OPEN TWO
DAYS EACH WEEK

The East Side branch in the basement of the old Third U. P. building on the corner of Beckford and East Washington street, will be opened to the public on May 1, according to the announcement of Alice M. Sterling, librarian.

The new library will house some 1500 volumes, and will be open to the public two days of each week.

Work has been taking place in the preparation of this new and large branch of the library for the past few months. The front basement of the church has been remodeled and the branch will be housed in a room 15 by 28 feet. There is a ground entrance from Washington street.

Despite the fact that the room remodeling has been completed for some time, there has been a slight delay in the opening due to the time needed in obtaining library shelving and furniture as well as the time needed to place this large number of books on the shelves.

The library will be open each Wednesday from 12:30 to nine p. m. each Saturday from nine a. m. to six p. m. and one of the regular staff members will be in charge.

The branch will contain no reading room at the opening and should demand establish a necessity for it, one would probably be added in the future.

DEATH RECORD

Mrs. Elizabeth Fahey, 42, 212 Phillips street.

Mrs. Lena Tervo, 35, Slippery Rock Township.

E. Frank Wallace, Elizabethtown, Pa.

Mrs. Jennie Chadderton, 71 New Port.

PART OF MAINE IS FLOOD THREATENED

(International News Service)
PORTLAND, Me., April 18.—Rivers of Northern and Western Maine were rising rapidly today with threats of floods, according to reports to the weather bureau.

By eighteen inches of snow from last week's "blizzard" and by rain from the storm of the past two days, the rivers had reached spring freshet height at the head waters.

The next twenty-four hours will tell the story, weather bureau officials said.

Roads in many districts were reported washed out.

Sensation Is Created In Berlin By Wild Rumor Of U. S. Concession

No Change In Firm Policy Of U. S. Is Anticipated Or Provided

(International News Service)
BERLIN, April 18.—A sensation was created here today by a rumor from Paris that the Washington government had authorized Owen D. Young to discuss war debt reduction in the reparations conference. Newspapers declared that "hopes for an American miracle are rising."

Nationalist newspapers commenting upon the reported offer of \$400,000,000 annually by Dr. Hjalmar Schacht, head of the German delegation at the reparations conference, called it "fantastic."

Fascist leaders repudiate the alleged offer.

The official figures are not known, as they were not given out in Paris.

The wild rumor attributed in Berlin to Paris is contrary to every official announcement made since the conference was first proposed. Official spokesmen for the United States government announced that the United States would not consider reduction of war debts nor would they consent to a discussion of reparations and war debts together. The United States even refused to participate in the reparations conference for fear

Samuel Abramson, Noted New York And Detroit Gunman Found Slain In Detroit

(International News Service)
DETROIT, April 18.—Samuel Abramson, notorious New York and Detroit underworld character was shot to death by gangsters here early today. His bullet-riddled body was found in a puddle of water in an alley in an outlying residential section.

Detectives of the homicide squad are certain Abramson was slain for revenge. Liquor deals are probably back of the killing, they believe.

Abramson's varied underworld activities here, police claim, brought him from a poor pickpocket suspect to wealth estimated at more than \$500,000. His resorts here were known to police as hideouts for New York and fugitive pickpockets. It was said.

Few Measures Before Legislature Session Aroused State Wide Interest Summary Of Recent Session Action

By C. B. YORKE
International News Service Staff Correspondent

HARRISBURG, April 18.—With the clocks showing the hour of noon the one hundred and twenty-eighth session of the Pennsylvania General Assembly came to an end today. The session ended as it began, with administration forces entirely in control.

In the period from January 1 when the Legislature convened until it closed no major bill which did not have the O. K. of the party leaders had a chance of passage. Those that were backed by active groups and that failed to develop opposition

were passed. Those which aroused active opposition and which the administration forces did not move to save, seldom struggled from committee.

Only two measures—the increased gasoline tax, and the voting machine enabling act—seemed to arouse State-wide interest. Both now rest on the Governor's desk in exactly the terms which he desired.

From the beginning of the session and for that matter long before, it had been decided that the Department of Highways needed additional revenue.

Governor John S. Fisher was pledged to greater aid to rural roads, taking over all county bridges on State routes and incorporation in the highway system of city streets used by State routes. A series of bills incorporating that plan was prepared.

One Year Gas Tax Raise

The original intention was to make the gasoline tax increase of one cent effective for the biennium. As a compromise a one year plan was decided upon while the three cent tax was made permanent. In the face of loud protests from the motorists administration forces decided that, with the proper pressure, the measure easily could be forced through.

After several hours of debate the House voted 128 to 73 to pass it. (Continued On Page Seven)

President Hoover Admonishes Congress About Lengthy Special Session

BIG LEADERS IN QUANDARY TODAY

May Abandon Public Hearings On Tariff Issue In Order To Save Time

By GEORGE R. HOLMES
International News Service Staff Correspondent

WASHINGTON, April 18.—President Hoover's insistence that congress "step on it" in the handling of its very abbreviated program for the special session, wind up its work and get out of the Capital as soon as possible, had congressional leaders in somewhat of a quandary today.

However, they are dutifully going to make the effort—even to the abandonment of public tariff hearings by the senate.

News that Senator Smoot (R) of Utah, chairman of the senate finance committee and highest of the high tariff Republicans in the senate, favored the unprecedented step as one way of shortening the session spread throughout the Capitol today, and caused no little prying on the part of senators interested in specific schedules.

Problematic Issue

Whether the leaders can accomplish it or not seemed problematic. There never has been a tariff bill passed without extensive public hearings at both ends of the Capitol, and if the Fordney-McCumber bill can be amended without them it will mark a radical departure from traditional procedure.

The house has already devoted some seven weeks to tariff hearings and its bill is in the final process of completion.

Capital Startled

Ordinarily, the house would pass the bill, send it along to the senate, and the finance committee of the upper house would proceed to hold extensive public hearings to assuage the feelings of those who felt they had not been treated right in the house measure.

Senator Smoot has always been a stickler for senatorial prerogatives in the matter of tariff legislation. That he should now favor the abandonment of senate hearings—indicating that the senate plans to rather meekly accept the house bill—startled the Capitol almost as much as if the Washington Monument should suddenly tumble into the Mall.

Abandonment of public hearings by the senate admittedly would shorten (Continued On Page Two)

French Liner Paris Goes Aground On Eddystone Rocks, But Is Refloated Quickly

(International News Service)
LONDON, April 18.—The great French liner Paris, one of the biggest and fastest passenger ships plying the north Atlantic, went aground this morning on Eddystone rocks, near Plymouth, but was refloated after a short time, according to advices received here from Plymouth.

The Paris was enroute from Havre for New York on her regular westward voyage. There are approximately 300 first cabin passengers aboard.

Workers Get 400 Members In First Day Of Big Drive

Boys Division Of Y. M. C. A. Leads Team Workers In First Report

DRIVE CLOSES THIS EVENING

Three hundred ninety-nine new members for the local Y. M. C. A. were annexed Wednesday in the first day of the annual two-day membership drive by the 150 workers who make up the 12 drive teams of directors, young men and boys, according to the results given by team captains and supervisors at the first report dinner and meeting, which took place Wednesday night at 6:30 o'clock on the Y. banquet room.

The boys' group teams led the field with 174 of the total members. The directors reported 135 new members, while the young men's group were down a step with 100 reported.

Team 12 Leads

Team 12 in the boys' department division, and captained by Roger McCormans, led the division, as well as the entire number of drive teams, with a total of 61 members. This team was followed closely with the boys' team led by Nicholas Uram, which reported 60 members.

In the young men's division the team captained by Henry MacNicholas was first with a report of 32 members, while in the directors' group the squad headed by John P. Butler finished in the lead with a total of 49 memberships.

Enthusiasm was rampant at the meeting Wednesday evening. The entire group of workers dined in the banquet room at 6:30 o'clock after the invocation by Rev. Sam Maxwell, and this was followed by a short and peppy meeting.

General Chairman John R. Preston took the chair immediately following the dinner and called on R. L. Wallace, who gave a short talk on what the local organization meant to this city in a civic way.

Explains Drive

General Secretary R. L. McCormans explained the drive work for today. After last night's meeting the territory was thrown open and every man is a prospective member for any drive worker.

After the check-up the meeting was adjourned by Chairman Preston and the workers started out 150 strong. They are working throughout today and this evening the drive will be over and the final reports will be made by team supervisors at the dinner which will also occur at the banquet room at the usual 6:30 hour.

Famous Trans-Pacific Plane Forced Down In Australian Wilds, Resumes Flight

STILL HUNTING FOR ANDERSON

(International News Service)
LONDON, April 18.—The plane Southern Cross which was located in the Glenelg river district of North-western Australia after being forced down and "lost" for nearly a fortnight, hoped off after being refueled and landed safely at Derby, according to Sydney advices printed in the evening newspapers. Derby is on King Sound on the northern coast of Western Australia, 300 miles from Wyndham.

Pilot Holden of the relief plane Canberra which found the missing Southern Cross and its four occupants is investigating a report that Lieut. Keith Anderson, another missing aviator who was seen in the vicinity of Turkey Creek, 100 miles south of Wyndham.

Anderson disappeared while searching in his plane for the Southern Cross. His disappearance had a dramatic element because he and Capt. Charles Kingsford-Smith director of the Southern Cross flight were at odds over litigation.

In addition to Kingsford-Smith the Southern Cross contained Capt. Chas. Ulm, and two other airmen.

The Southern Cross was on the first leg of a flight from Australia to England when it was forced down by lack of fuel.

HARRISBURG, April 18.—Following a recess which began shortly after three o'clock this morning, the house reconvened in its final session at 10:30 o'clock.

The house proceeded to concur in amendments made to bills in the senate and passed several bills which had been recalled from the Governor. The procedure took a few minutes and for the next half hour the members were bidding adieu and farewells.

At 11:15 Speaker Hess called for order and the customary presentation of gifts began with Representative Heffernan, Philadelphia, as master of ceremonies. He called on Representative Turner, Delaware, who presented an alarm clock to Representative Davidson, Allegheny, who several times during the sessions told members to wake up while rolls were being called.

In return Representative Stadlander, Allegheny, presented Turner, who fettered aeronautics legislation, with a toy airplane. Stadlander also presented Representative Wetach, Allegheny, with a box of sausage.

Suicide Attempt By Youth Fails

Youth Tries To Hang Self, Is Revived, Placed In Custody For Observation

(International News Service)
BROOKVILLE, Pa., April 18.—Harry Keller, 17-year-old farmhand, who committed suicide by hanging himself, was in jail here today pending an investigation and under medical observation.

Keller's body was found hanging from a rope attached to a rafter in the barn of Ed Smith, residing near here. Smith cut the body down and placed it in his automobile, in which he started for the morgue here. When Smith had traveled about half the distance to the morgue he glanced around to see how the body was riding.

The eyes were open. A short distance further Keller had revived and instead of being taken to a morgue Smith escorted him to jail.

Keller refused to talk concerning his near suicide, but declared he had run away from home because of his step-father. He is the son of Mrs. D. H. Kephart of near Indiana, Pa.

My neighbor is busy these warm afternoons and he talks about distances far, and he rubs and he polishes morning and night on that second hand wreck of a car. He speaks nonchalantly of thousands of miles, and of mountain's he's climbed up on high, and he casually mentions the speed of his bus, and he says nothing ever gets by. Now I know that his car is a wheezy old run, and it hasn't a ghost of a white hot, and he's proud of that crack and he rightfully should, for the whole kit and boodle is his. He does not a soul for the car that he runs, and there are no instruments to pay, so he works and he whistles to get it shined up, it's nice and just forty-eight today.

FEDERAL TROOPS ADVANCE SLOWLY

(International News Service)
NOGALES, Sonora, Mexico, April 14.—A battle between the federal forces under General Lazaro Cardenas and the rebel armies under Generals Plutarco Calles and Roberto Cruz and Ramon Lujan appeared imminent today as the rebels concentrated their forces at Naco, Sonora. It is expected the clash will occur somewhere near the Rio Mayo or the Rio Yaqui.

Meanwhile, Agua Prieta and Nogales, held by the rebels, were being fortified against a possible attack from the federal forces under the command of General Lucas Gonzalez, now at Naco, Sonora.

The Nogales garrison yesterday was reinforced by the arrival of 500 cavalry from Chihuahua. Another 500 are reported to be en camped at Casas, 18 miles south of here.

The rebels are reported to have dispatched a large detachment of troops to Pulpito Pass to aid General Marcelino Caraveo in guarding the eastern boundary of Sonora against the invasion of 5,000 troops under the command of General Juan Andres Almazan.

General J. Gonzalo Escobar, head of the Mexican rebel armies, today tightened up on the military censorship and refused to issue information to the press. He is still maintaining his headquarters in a military train here. The train is held in readiness for immediate departure south.

HOOVER REQUESTS CONGRESS SPEED UP SPECIAL WORK

(Continued From Page One)

The session by several weeks at least. However, when seasonal constituents, disappointed by failure to win contested rates before the house, begin to "bear down" on senators for the opportunity to publicly present their cases, there may be found considerable "use" to go over it all again.

Hope To Leave June 15

President Hoover wants congress out of the Washington trenches as soon as possible, and not later than June 15, if possible. There are only a few optimists who believe this can be accomplished—some pessimists even believe congress will be here when dog-days roll around.

If the Presidential influence, however, is strong enough to compel the lanky senate to abandon its time-honored prerogatives in this case, maybe the optimists will prove correct after all. The betting is, however, that they won't be right.

that the war debt question would be raised. However, the Washington government consented to the allied proposal that unofficial American observers take part in the conference. They were appointed to reflect the views of American banking and business circles. They have no connection with the United States government, make no reports to it and receive no instructions from it.

WASHINGTON, April 18.—Rumors, circulated in Berlin that the American government had authorized Owen D. Young and J. P. Morgan to discuss war debt reduction at the reparations meeting in Paris were characterized as "ridiculous" in official quarters here today.

The firm and unshaken policy of this government is to not associate war debts with reparations in any way and that policy is being adhered to in the conversations at Paris, so far as Washington knows.

What probably gave rise to the rumors, it was said, was that Young and Morgan forwarded to Washington a suggestion advanced by France and Britain that the United States might be willing to forego a part of the claim against Germany arising out of the military occupation of the Rhineland after the armistice.

A reply was sent back to that proposal, and although the nature of it has never been revealed, it is understood to have been a polite "no," as reported from Washington by International News Service several days ago.

THE EXPLANATION OF A MILD WINTER.

By Arthur D. Carpenter.

Due to the circulation of the air over the surface of the earth the weather is transferred from one part of the country to another. Occasionally in northern latitudes the winters seem unusually mild but the explanation is no far to seek. Every few days atmospheric disturbances, known as cyclones cross the American continent from west toward the east. Whenever such a storm passes over its center is to the north of a given location that locality receives the wind first from the east, then south-east, south and south-west. Such draughts of air come from more tropical regions, consequently mild temperatures prevail.

Engineers Setting Stakes For Change In Wilmington Road

Improved Thirty Foot Section To
Extend From City Line
To Walmo

State Highway engineers are setting stakes for the widening of the New Wilmington road, the stakes having already been set from the city line to a point near St. Joseph cemetery. These stakes as driven do not indicate the width of the road, but each stake contains figures showing the distance to the center of the proposed widening area. They are for the guidance of the contractor in establishing the lines.

The road will be a decided improvement and will present a beautiful appearance when completed. The improved section of the roadway is to be thirty feet wide. Ten feet will be graded on each side, the grade having a small slope toward the outer edge of the ten feet where it will turn up again to the property lines. The ten feet on the sides will enable machines to park clear of the concrete, when it is necessary for the removal of trees or other work on the cars.

It has been found that the present macadam is not exactly in the center of the old road way at all points, so that the center line of the present road will not be exactly the center line of the newly improved section.

The only important change in the road will be at the curve opposite the intersection of the Pulaski road. This curve will be partially eliminated under the proposed plans. At present there is a sharp curve at this point and a store room on the east side which obstructs the view. This store room is to be moved back. The curve further south, near the city line, which is not so acute as the one near the Pulaski road, will be left much as it is now.

Under the present contract the thirty foot improved road section is to extend from the city line to Walmo. It is understood that work will be started on the contract within a short time. It is understood to be the intention to keep one side of the road open while the work is in progress, so far as this is possible.

Mrs. Fahey was a member of St. Mary's church. Besides her father she leaves one son, Paul.

Deaths of the Day

Funeral services will be held Saturday morning, April 20, from St. Mary's church. Burial in St. Mary's cemetery.

E. Frank Wallace
Word has been received in this city of the death of E. Frank Wallace, which occurred at the Marine Home in Elizabethtown, Pa. on Wednesday as the result of a stroke.

Mr. Wallace was a member of Robert Burns Lodge, No. 464 of Harrisburg, Pa. He will be buried at Elizabethtown.

Mr. Knox Buried
Funeral services for the late John F. Knox, retired merchant, and one of the best known men of this city, took place Wednesday at three o'clock from the family home, 221 Winter avenue.

Rev. H. C. Weaver, D. D., pastor of the First Methodist church, of which Mr. Knox was an active and faithful member, was in charge of the services, assisted by Rev. H. J. Buckingham of the Primitive Methodist church.

The home was filled with many friends and relatives. Sympathy was expressed by a profusion of beautiful flowers which banked the casket.

Burial was made in Oak Park cemetery and the pallbearers were Andrew Reider, S. B. Cleat, T. P. Hamilton, James E. Drake, W. G. Andrews and William Thompson.

Joseph Palmer
Joseph Palmer, aged 74 years died Wednesday at the Lawrence County home. The deceased has a number of relatives in the vicinity of Leesburg. The body has been removed to the Book-Leyde Mortuary for announcement of funeral later.

Mrs. Jennie Chadderton
Mrs. Jennie Chadderton, aged 71 years died Tuesday at her home in New Port after an illness of complications. She had lived in that community for a number of years and was well known.

She is survived by her husband, Andrew Chadderton and one sister, Mrs. Catherine Huffing of Grove City. On account of the critical illness of her husband no arrangements have been made for the funeral.

The body has been removed to the Marshall Undertaking parlors.

Apparently the ideal mate is one just simple enough to stand for boasting and not quite simple enough to be ashamed of.

Early indications are that for the next four years nobody will be left in doubt as to who is President.

Of Foch Funeral**

Miss Jane Emery daughter of Mr. and Mrs. John Emery of Euclid avenue, who is now taking a post-graduate course in France in connection with her course in the New York School of Fine and Applied Arts has written most interesting of the funeral of Marshal Foch, which she witnessed.

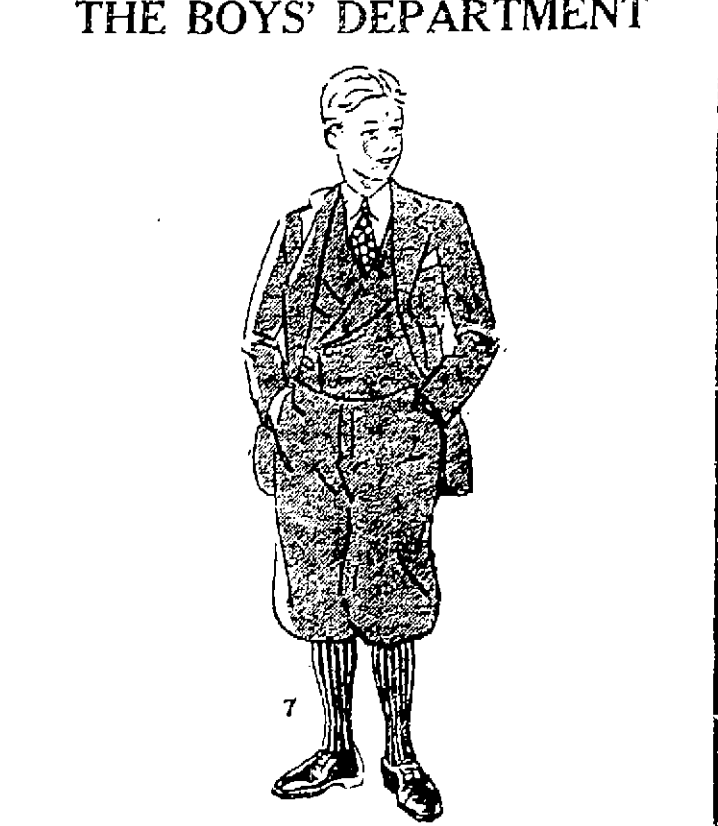

According to Miss Emery it took an hour and a half for the funeral procession to pass and in it she saw General Pershing and representatives of every nation in the world. At the Rheims Cathedral the draperies were

most wonderful and remarkable, she states.

She and five other young ladies of the school spent the Easter vacation in Belgium and Holland and had a wonderful time.

In a short time she will go to Italy to continue her work, spending two months there with Milan as her headquarters. Most of the work to be done there will be in the nature of research work.

CELEBRATE GOLDEN WEDDING, WEDNESDAY

In celebration of the 50th wedding anniversary of Mr. and Mrs. Ed Sechler of Princeton, Pa., 35 relatives were entertained at a beautifully appointed dinner in the home of the former's brother-in-law and sister, Mr. and Mrs. J. H. Boyd of Princeton, Wednesday evening.

A large wedding cake centered with a miniature bride and groom, spring flowers and tall yellow tapers in crystal holders decorated the table, and an elaborate dinner was served at 7 o'clock.

Dinner was served by the Misses Nina Boyd, Peg Boyd, Gula Sechler and Thelma Cameron.

Mr. and Mrs. Sechler, who are both enjoying good health, were married at Haverhill, Butler county, Pa., April 17, 1879, by Rev. Richter, pastor of the Methodist church. They are the parents of one son, Harry Sechler at home.

Mr. Sechler for the past 40 years has been owner of the Monumental Works at Princeton, and is still following this occupation.

An informal evening was enjoyed and the honored couple received a lovely floor lamp, as well as many other gifts.

Out of town guests were Mr. and Mrs. Philip Sechler, Miss Gula Sechler, Mr. and Mrs. John Goerman and Mr. and Mrs. Wendell Sechler of Butler, Pa., Miss Mary Deter of Prospect, Pa., and Mr. and Mrs. Ed Sechler of Beaver Falls.

Mr. and Mrs. Sechler were entertained at noon Wednesday in the home of Rev. and Mrs. F. C. Black of Oak Grove, where a nicely appointed dinner was served. The honored couple are members of the Oak Grove U. P. church of which Rev. Black is pastor.

Fort Burreka
 The regular meeting of Fort Burreka, No. 45, American Home Watchmen, took place in their hall in the city building Wednesday evening.

On account of the commander, Mr. Parshall to fill the vacancy, Mrs. Pasco was named vice commander and Mrs. Blanch Lewis trustee. After the lodge meeting the members went to Mrs. Bell Hopwood's restaurant for lunch. In two weeks the order will enjoy a euchre, five hundred and bingo party, beginning at 8:30.

"THE TERROR"
 ALL TALKING HIT
 "The Terror" Warner Bros. latest and greatest all-talking picture, comes to the Capitol theatre next week for a run of six days. This shivery, shrieky mystery drama is a Harvey Gates adaptation of the phenomenally successful London play of Edgar Wallace. The cast includes May McAvoy, Louise Fazenda, Edward Everett Horton, Alec B. Francis, Matthew Betz, Holmes Herbert, Otto Hoffman, Joseph W. Girard, John Miljan and Frank Austin. Roy Del Ruth directed.

Not only are all lines spoken in "The Terror," but all sounds incident to the amusingly unromantic course of action are heard, the playing of an unseen organ, shots, shrieks, groans, mocking laughter, the wail of winds, the beat of rain. "The Terror" stands alone as the most realistic of all materializations of that latest and greatest marvel of science, the Vitaphone. You'll talk about "The Terror" for a year.

All ladies attending the matinee Monday will receive a beautiful carnation.

There's Breeding behind an American watch
 TALK to a racehorse owner about his thoroughbred and you'll find his eye light and alert. You'll find that the eyes are on his watch. Or to us about any one of the fine American watches in our line.
 Yet we know them—from the tip of the bow to the innermost secret spring. We know the blood that runs in their veins—their breeding—their ancestry.
 In the last few years America has worked much in making and designing beautiful watches. Hamilton, Illinois, Biele, Waltham and Howard have created masterpieces of watchmaking. More, there are no "ifs" about the accuracy of an American watch. And the price is reasonably within the range of almost every pocketbook.
 We should like you to drop into our shop and look over our line of beautiful American watches. Release your doubts when you find just the one you've always longed for.

Today

President Hoover Says.
Several Drunk, One Dead.
Birth Control Raid.
Britain's Turning Sober.

By ARTHUR G. BRISBANE
(Copyright, 1929, King Features
Synd., Inc.)

Much meaning in President Hoover's first and brief message. Foreigners cannot complain if we make our tariff high enough to equalize differences in cost of labor at home and abroad. No reason why foreigners should profit in this country by under-paying foreign workers.

The people's votes ordered the government to do various things. develop waterways, revise the agricultural tariff and afford relief in other directions.

President Hoover intends that the government shall carry out the voters' orders.

"Waste between farmer and consumer" will be eliminated as far as possible. Middleman and possibly transportation costs will be regulated.

Legislation can't cure all the troubles of farmers. But farmers and farm organizations can be helped by legislation.

The farmers will have to do some of it by organizing their industry.

The government should not engage in buying, selling or fixing prices on products.

This means that the government will not undertake to buy the farmer's crop whatever he raises. He must continue to use judgment as to how much of each thing should be planted. That's his specialty.

"There should be no fee or tax imposed upon the farmer."

That will suit the farmer.

New York is much interested in a killing because it happened on Park avenue where millionaires live. A lady was throwing a party and a Mr. Bell invited Mrs. Brown to go. Mr. Bell in jail accused of manslaughter says there was a great deal of drinking. In plain words several were drunk.

One of the several will drink no more. His name was Smith.

After a certain number of drinks he decided to go home and wished to report Mrs. Brown to her hotel. Mr. Bell objected and pushed or hit Mr. Smith who fell down and broke his crown. That is to say fractured his skull. Hence the manslaughter charge.

Mr. Bell didn't mean to kill anybody. It was accidental. A drunken man killed is often a nuisance.

The interesting question is: What about the prohibition law?

A man in the west was accused of having wine in his house. Nobody was drunk but agents broke in and killed his wife.

Is there a different law for Park avenue, New York?

Prohibition agents know the exact spot where many drank "several got drunk" and one was killed.

Will anything be done about that recherche booze? Wait and see?

A New York birth control clinic is raided. Five women locked up. The law says you mustn't give information about birth control.

What it means is that you mustn't give information to poor and ignorant women those least able to take care of big families.

Everybody knows that prosperous women get without trouble all birth control information they want from able, respectable doctors.

However in this land of equality there is always a difference between the rich and the poor, whether in prohibition or birth control.

In Great Britain human beings can if they choose gradually cure themselves of drunkenness voluntarily.

Churchill, chancellor of the exchequer is worried because tax receipts on alcohol are so low. Britishers are drinking less and less beer and whisky. Excise revenues are but almost \$800,000,000 to \$285,000,000.

Here we try to diminish drinking by main force, legislation and constitutional amendment. We seem not to succeed so well.

Somebody should keep Mrs. Owen daughter of William Jennings Bryan from her seat in congress because she is the widow of an Englishman. She was elected on the Democratic ticket by a big majority although Hoover carried her district.

Th effort to exclude her is particularly silly. She was born in America as were her father and mother. If she were the widow of 40 Britishers which fortunately is impossible that should not interfere with her right to a seat in congress.

Prof. Edington deep scientist of Cambridge, England says space is not empty. "The stars move through the universe in an interstellar cloud about as thick as one puff of smoke would be in a cube 10 miles square."

Another scientist tells you that all the actual substance in the tail of a comet, billions of miles long, could be packed into one barrel.

Nature giving such a thin tail to a comet and 40,000 solid eggs to one! Had seems to practice economy and extravagance inconspicuously.

The late Judge Gary would if he were a spiritualist come down and congratulate Mr. Farrell now head of the big steel corporation.

United States steel is doing 93 per cent of all the business it possibly can do and will sell \$1,500,000,000 worth of products this year. That is a business.

It is said that hundreds of boys are making their way through college by writing but of course this doesn't include the ones who begin: "Dear Dad."

Doing very much of any kind of work is a terrible hardship on a lot of birds.

Defense Rests, Helen Will Not Be Put On Stand

Miss Helen Morgan Not To
Testify In Own Behalf;
Defense Quietly
Rests Case

MOTION TO DISMISS
CASE IS DENIED

NEW YORK, April 18.—Attorneys for Helen Morgan, wife of a slain night club queen, spring a sensation at the trial today at the trial on charges of maintaining a nuisance in connection with the operation of Helen Morgan's summer home when they rested their case without calling the demure brunette to the witness stand.

Only one witness was called by the defense in its effort to prove that Miss Morgan was merely an employee of the night club and not one of the proprietors. This witness was Myron S. Benham, a theatrical agent who gave testimony regarding certain contracts entered into by Miss Morgan which guaranteed her appearance at the night club as entertainer and hostess.

Benham testified that he negotiated Miss Morgan's contract with the proprietors of the night club while she was abroad acting in 1927. He did business with Nick Blair one of the proprietors he said.

Immediately after the government closed its case this morning, defense counsel made a motion for dismissal of the action on the ground of "lack of evidence." This precipitated a legal discussion, the assistant United States attorney contending that the testimony

showed that Miss Morgan not only took a drink but that on one occasion she sent out for a supply of liquor.

Judge Edwin S. Thomas denied the motion.

During the court listening attentively to the testimony Miss Morgan presented quite a contrast to the glittering "Texas" Gaiety.

Miss Morgan wore no jewels, her only adornment being a religious token. She is a small brunette with big simple blue eyes and a sun-like face. She wore a blue ensemble, blue straw bonnet and a flowered scarf over her left shoulder. She explained that she wore it over that shoulder "for luck." She was self-contained throughout, revealing no emotion in contrast to the colorful Gaiety.

Shriners Present At Valley Smoker

New Castle Men Attend Rochester Affair As Guests Of Valley Caravan

A delegation of members of the New Castle Shrine Caravan No. 5 journeyed to Rochester last night and attended the smoker sponsored by Shrine Caravan No. 6 of the Beaver valley in the high school building there. The local Shriners were special guests of the valley men for the evening.

Headed by the New Castle Shriners was President P. L. Rents of the local caravan. Accompanying him were the members of the board of directors and other Shriners.

Illustrious Potentate Robert W. Weisbord of Syria temple, Pittsburgh, accompanied by his divan and oriental band in uniform were present and added splendor to the occasion last night.

President A. C. Moxey of the Butler Caravan No. 14 was a guest. During the course of the evening he extended an invitation to the Shrine nobility to attend the eighth annual dinner stag of that caravan which will be held at Butler tonight.

WOMAN WINNER
IN TEST CASE

WASHINGTON, April 18.—Losses caused by storms and other "acts of God" may be deducted from income, tax returns, the U. S. board of tax appeals ruled today, in a decision of far-reaching consequence.

Under this decision, the many millions of dollars damages caused in storm-stricken areas in Florida, and flood damage in the Mississippi valley and New England areas in the last few years, apparently may be deducted in reporting income for taxation purposes, for tax lawyers considered the case a test case.

The decision was rendered on an appeal brought by Mrs. Mary Cheney Davis, whose country estate at Greystone Farm, Dover, Mass., was visited by a violent storm in 1921.

house by Representative Staudenmaier, Schuykill. Representative Jones, Luzerne, sponsor of one of the anti-trait tax repeals, was given a coal bucket.

At 11:41 the house clock was turned back for the first time, the hands showing 11:30. Representative Gross, York, one of the consistent "no" voters in the house was given a bull.

The more serious presentation of gifts followed. Representative Hefernan presented a corner clock to Speaker Hess of Lancaster, Eugene F. White, Delaware, chief clerk of the house, was given a diamond pin.

The correct time at this point was 11:57. The house clock reached 12 and was again set back to 11:30. Milton K. Burger, Chambersburg, resident clerk, was given a diamond ring. Quirk, was given a silver table service. Assistant Reading Clerk O. E. Martin, Lancaster, received a mantle clock.

HARRISBURG, April 18.—Almost one hour late, the Senate today began its scheduled 10:30 meeting and moved swiftly to end finally the present session.

Start of the session was delayed to permit arrival of a delegation from Philadelphia who wanted to witness the election and induction of Augustus P. Dalk as president pro tempore. Senator Dalk made the presentation speech of the Senate's gift to President Pro Tempore Horace W. Schantz. It was an electric range which today is being installed in his Allentown home.

Chief Clerk John McKirdy also presented to Senator Schantz an ivory silver mounted gavel which had been bought by contributions of Senate employees.

As the "hour of noon" approached the hands of the Senate clock were turned back.

Lieutenant Governor Arthur H. James in speaking of the harmony which has ruled the present session said that "a Pennsylvania ditchman" was the exception and another of the same pioneer strain was speaker of the House and Senator Schantz was presiding officer of the Senate also belonged to that group.

Senator Dalk by a straight party vote was elected as president pro tempore. The Democratic nominee, Senator Warren Roberts Northampton, received the five Democratic votes.

Mayor Harry A. Mackey, Philadelphia, also made a short presentation tribute to the services of Senator Dalk not only to the state, but also to his home city.

Mackey assured the Republican senators that never in the history of Philadelphia has their party been more solidified than at present, and asserted that those who hope for a break in Republican ranks must look elsewhere.

Final Session
Harrisburg, April 18.—Little but the exchange of gifts and complimentary speeches remains before the General Assembly of 1929 as both houses reconvened for the closing session at 10:30 this morning.

When the "hour of noon" arrives the house and senate will adjourn separately.

Although there were still a few bills to be taken care of before final adjournment most of the work was accomplished at the early morning session that started at 1:30 today.

The house passed a score of measures on third reading while the senate spent most of its time concurring in house amendments.

The chief feature of the morning in the senate was the election of Senator Augustus P. Dalk, Philadelphia, as president pro tempore, succeeding Senator George W. Schantz, Lehigh.

Twelve Bills Passed
At the early session of the senate today 12 bills were passed finally. They included one which will continue for another two years the commission charged with studying the existence of crime and recommending measures which will control it.

The commission when authorized two years ago had a \$50,000 appropriation. As the bill passed the house it carried a like amount, but it was cut to \$15,000 by the senate.

A few members stayed at their posts to permit concurrence in the bills which had been amended in the house as that body continued to grind away through the night. Unlike the house the senate members do not amuse themselves by school boy pranks to pass the time and the representation continued to grow smaller until only half a dozen remained on duty.

Booking Agent Testifies In Morgan Trial

Claims Miss Helen Morgan

NEW YORK, April 18.—Testifying today at the trial of Helen Morgan, Broadway actress and entertainer, who is charged with maintaining a nuisance in connection with the operation of "Helen Morgan's Summer Home," a night club, Myron S. Benham, a theatrical booking agent, revealed the defendant's contract to be in contrast with the contract held by "Texas" Gaiety for her work in the "Intime club."

Benham said that Miss Morgan's contract was for \$750 a week, no Sunday work, that her duties were to end at 3 a. m. and that they were not to interfere with her position as star in the musical comedy "Show Boat."

At "Texas" Gaiety's trial it was disclosed that La Guinan was to re-

ceive 50 per cent of the profits (between \$2,000 and \$3,000 a week), that her name was to be in electric lights above everybody and that she was to be the sole entertainer.

Elmer O. Delancy, George Washington Junior high school teacher, made the principal address at the regular meeting of the Parent-Teacher Association of the Highland school, held at that school on Wednesday afternoon.

"Intelligence Testing" was the subject upon which Mr. Delancy spoke. He mentioned the ways of determining what interests a particular child holds and what aptitudes they possess.

Early detecting of these personal traits aids the teachers materially in their education procedure and what they expect of the child, he said.

At the present time Mr. Delancy is giving his subject extensive study and much time. His address was well received by the large number of parents and teachers of Highland who had gathered to hear him.

NEW YORK, April 18.—The blue sedan used by six bandits yesterday in the daring heist of a bank messenger, which netted them \$35,392, was found today a few blocks from the scene of the robbery. (Special To The News)
GROVE CITY, April 18.—About 100 members of the Erie I. O. O. F. Lodge will arrive Saturday evening on the seven o'clock train, and take part in a session of lodge which will be held in the lodge room of the I. O. O. F. hall on Broad street.

Dinner will be served to the visitors at eight o'clock by the Judith Rebekah Lodge team. The chairman being Mrs. McGill.

Following the dinner, the extra session of lodge will be held, having a special dispensation from the Grand Lodge. The "Kid Team" from the Wayside Inn will confer the initiatory degree on a class of candidates. Following this the Erie team will confer the first degree.

The Old Fellows will remain all evening and visit the Wayside Inn on Sunday morning. They will return home on the afternoon train.

Commencement Exercises
The commencement exercises at Grove City College will be held Wednesday June 12th. The speaker for the day is Dr. John A. H. Keith state superintendent of public instruction.

As in former years it is probable that the final week of ceremonies will begin on Friday, June 7th. The Baccalaureate services will be held Sunday evening June 9th and will be conducted by Dr. John M. VanderMeulen, president of the Louisville Presbyterian Seminary of Louisville, Kentucky. No announcement has been made as yet concerning the number who will graduate.

WHOOPEE CLUB
The members of the newly formed Whoopee club met last evening at the home of Miss Dorothy Hepler, Jackson street. Dancing was the diversion of the evening. Miss Estella Chinaloff of this city was a guest of the club. Lunch will be served by the hostess.

THE FALL OF THE PROUD WILD GESE.

What a commotion in the barnyard now! Every tame goose and gander, large and small, stretched out its neck, flapped its wings and screamed a welcome to its wild cousins, who were now almost over their heads. Peter, who had just made out the V-shaped flying wedge in the bright moonlight, and it stretched across the heavens as far as he could see.

"Honk! Honk! Honk!" answered the proud wild flyers.

"Hear! They are telling us of the howling winds, the crashing icebergs, the swirling snows of the North! Listen! Now they are whispering of the joys to come, of laughing ripples, of warm sunbeams, of sweet flowers of the South, to which they are on their way! On to be wild, wild, wild!"

Then something happened—a dreadful something! With shrieks of fear and cries of pain count less numbers of the flock that only a second before had been winging so proudly through the starry night came crashing to the ground.

Startled as he was, Peter's first thought was to go to the aid of the fallen geese. He was climbing over the barnyard fence when he was stopped in a most unexpected way. Gander flew straight at him, his neck stretched out, his sharp beak was almost in the boy's face.

"Go right away from here, you silly Two-Legs," hissed he. "You have seen and heard too much as it is. Haven't you sense enough to know that all this is none of your business?"

"It is bad enough for such a terrible fate to overtake the Wild Geese without a human finding it out. If you dare to tell any of your people what has happened this night, and I ever hear about it, I will peck both your eyes out! And I shall hear of it, you may be sure of that! If any harm comes to these fallen kindred of mine I shall feel certain you are the one to blame."

"Off with you, now, before I lose my patience and do something I may be sorry for afterward."

Peter was surprised and angry. What had he ever done to old Gander?

to make the fellow turn upon him like that? Why, they had always been the best of friends! When he only wanted to help the poor fallen birds, too! He could hear them groaning all about him.

He wisely decided, though, there was no sense in arguing with an excited Gander—he wouldn't gain anything, and indeed he might lose an eye for his trouble, so making the best of things, Peter turned back and hurried off home.

PITTSBURGH, April 18.—It will be several weeks before the additional prohibition enforcement officers for western Pennsylvania, as allowed under the new enforcement funds authorized by the government, will be put to work here, Prohibition Administrator John D. Pennington announced in Washington. This was made known after Pennington had ended a conference with James M. Doran, federal prohibition commissioner.

Congress at its last session authorized additional funds for more agents. Administrator Pennington said he expected to be given from 15 to 18 additional agents. Although several of the allotment have already been appointed, it will take several weeks before the remainder have been selected, Pennington announced.

The conference with the national chief concerned routine matters affecting the western Pennsylvania-West Virginia district, of which Pennington has charge.

That only is disgrace to a man which he has deserved.—Phaedrus.

Shamokin Man Is Suicide Victim

(International News Service)
SHAMOKIN, Pa., April 18.—Charles Culp, 64, of this city, ended his life Wednesday by drowning himself in a barrel of water in the cellar of his home. His grandson, William Culp, seven, going to the cellar, discovered the body with the legs sticking from the barrel.

Printed fabric belts are prominent in the new collections.

YOUR HOUSE NEED PAINT? . . . THEN CONSIDER—

There are TWO ENDS to a Paint Brush

A skilled painter at one end and pure lead paint at the other save your house and your money

JUST around the corner—somewhere in your community—are the two famous partners of painting history. They are the master painter and pure lead paint.

The master painter you'll know by his reputation. He is no slap-dash workman, interested only in profit . . . here today and gone tomorrow. You'll recognize him quickly by the work he has done—and by another sign. He uses pure lead paint as have skilled painters for generations. Why? Because with this paint, made with Dutch Boy white-lead, he can give you a durable job that reflects credit on him, that makes you willing to recommend him to others.

Dutch Boy white-lead is sold by paint dealers everywhere

Few Measures Before Legislature

(Continued From Page One)

The Senate only 12 votes were registered against it and 36 in support. Meanwhile in each house the series of bills which will make possible the expenditure of \$10,000,000 in the next biennium for the additional road program had been pushed through with little opposition.

Revision of the motor code to raise between four and five million dollars annually for highway department expenditures met with little opposition, except from the owners of trucks and buses which will bear only part of the burden. The fee for each operator's license was increased from \$1.00 to \$2.00 and that for a learner from \$2.50 to \$3.00. The rates for all classes of trucks and buses were increased.

Only interference of the Governor himself and Republican leaders permitted passage of a voting machine adoption bill in a form favored by those interested in clean elections. After weeks of delay caused by rival ambitions of Senator Frank Harris, Allegheny county, and Senator Albert Davis, Lackawanna County, a compromise joint bill was reported from the Senate committee on elections. Both had sponsored voting machine bills and both seemed determined to block action on the one favored by the other. Finally an agreement was reached, the bill reported out and passed without a single dissenting vote.

When it reached the House committee on elections things began to happen. When reported from the elections committee it was discovered that an amendment would permit a voter to instruct another with the curtains of the machine closed. Under that amendment it would have been possible in some wards for one worker to manipulate the machine for every voter. Backers of clean elections felt that each small advantage, wrung by years of hard work from previous legislatures, would have been completely nullified.

Amendments Changed Orders that demanded action were issued from party headquarters and the amendments were stricken out. In a form acceptable to election reform backers and the State administration the bill was passed in the House and approved by the Senate.

Considered next in importance during the session was repeal of the anthracite coal tax. At the beginning of the session Governor Fisher said

that in any program of tax reduction consideration of the coal tax would come first, but that a substitute method of raising revenue would have to be found.

The bill sponsored by Representative Benjamin Jones, Luzerne County, providing for immediate repeal of the anthracite tax was passed by the House and was then sent to the Senate. There it summered in committee along with a bill sponsored by Senator Robert D. Heaton, Schuylkill County, prepared by the administration and which provided for gradual repeal of the tax and its final removal on June 1, 1931.

Failure of the Senate finance committee to report out the gradual repealer which the Governor was expected to sign almost precipitated one of the few fights which threatened the peace of the Senate. The anthracite bloc of senators carried the fight direct to the Governor who promised action.

A bill introduced early in the session by Senator Heaton which provided for immediate repeal of the tax, was amended to conform with that for gradual elimination of the tax. It was reported from committee and passed with only five dissenting votes. The Jones bill went through with the same lineup.

Both are now on the Governor's desk. It is felt certain that he will not approve the Jones bill. Unless he is staggered by the total of the appropriation bills upon which he must act, approval of the Heaton measure is expected.

The brutal killing of a miner in Allegheny County just as the session was under way, accelerated the momentum for drastic revision of the system under which coal and iron police are commissioned and operate.

Coal Police Bills Identical bills, outlining the administration's views to control the situation, were introduced in both Houses. The one originating in the Senate was sponsored by Senator William D. Mansfield, Allegheny County, while the bill in the House was sponsored by Representative M. A. Musmanno.

Both bills passed both houses, but before that intervention of the Governor was necessary to get them reported from committee. After passing the houses in which they originated both bills were then allowed to slumber in committee and again the Governor's intervention was necessary to get action.

A series of 21 bills prepared by the Crimes Commission and intended to control recent crime waves and reform antiquated administration of the law fell on stony ground in both houses. Seven of the bills were approved. With the exception only of the fourth offenders act, those passed met with little opposition from professional criminal lawyers. Included in those defeated was the first bill which was intended to curb indiscriminate selling and possession of deadly weapons.

With the exception of the voting machine bill, the majority of those backed by friends of good elections experienced a fate similar to those measures of the Crimes Commission. Election reform measures contributed heavily to the "dead" files of committees in both houses.

Although the general salary schedule, backed by the Salary Survey Commission, apparently got off to a flying start, it limped sadly at the finish. Increased pay for all cabinet officers who receive less than \$10,000 a year was incorporated in the administrative code which was passed by both the senate and the house without opposition. Increased pay for all members of the judiciary, a bill similar to that vetoed by Governor Fisher at the last session, was approved.

Department Of Revenue Enabling legislation for creation of

a Department of Revenue in accord with the act passed by the 1927 session creating such a branch of the government, from a political standpoint, was considered one of the outstanding feats of the present session.

Because of the drastic changes made in many branches of the state government by passage of the fiscal codes a completely rewritten administrative code to guide the functioning of all state departments also was passed and approved.

A dozen subjects that at some time during the session seemed to loom large in importance dwindled to almost nothing as the weeks went on.

With the exception of the Woodward bill which will permit peace-meal purchase of the Philadelphia Rapid Transit underliers, the legislature showed its willingness not to meddle too much with Philadelphia politics.

Headed by Sheriff Thomas Cunningham, the Varc forces in that city were able to defeat any measure they did not like. Liaison with the administration at all times was maintained. Support of the Philadelphia delegation alone permitted passage of the gas tax bill in the house and in the senate the Philadelphia bloc supported it 100 per cent.

Much heralded threats of investigations and possible curbing of the wide powers now held by the Public Service Commission failed to develop.

The same situation was true in regard to the Board of Game Commissioners. Threats of "rippers" failed to go any further and about the only action taken affecting the powers of that body was the approval of the bill sponsored by Representative Clarence T. Edergar, Montgomery County, regulating open seasons for does and compelling advertisement of proposed game law changes prior to May 1 of each year.

A measure carrying out the provisions of the constitutional amendment for creation of metropolitan Pittsburgh was approved. The city will include all of Allegheny County, making it four in rank in the United States.

Recommendations of the State Aeronautics Commission for control of all phases of aerial travel were sent to the governor, except that which would have given municipalities the right of eminent domain in acquiring land field sites.

The wet measures sponsored by various members received little consideration in both houses. In the house the bill designed to wipe all dry legislation from the statute books was never heard of after it was referred to the Law and Order Committee. The same fate befell the more than 20 bills that would have modified the blue law of 1794, permitting Sunday sports and entertainments. None of these measures ever got further than committee.

Well Organized Perhaps no session of the house in recent years was as well organized as that of 1929. Committees spent much time on measures and in the majority of cases bills reported from committees were passed by the house which paid little attention to the measures. Members obtained the opinion that unless a bill was to be passed it would not be released by the committee.

This practice gave rise frequently to a call for some member to have some person explain a certain bill. The explanation would always come from some member of the committee which handled the bill or from the sponsor himself.

While the 1929 session of the house failed to develop an outstanding leader the consensus in the lower branch of the legislature was that it did do a bit of an outstanding speaker in Representative Aaron B. Hess of Lancaster. Speaker Hess went through many trying moments during the session, but with few exceptions his rulings were always considered fair and he has been declared to be among the best speakers who have presided over the house.

The ability of Speaker Hess to pass legislation forward is partly responsible at least for the ease with which the house worked during the closing days. The printing situation during the preceding week threatened to tie up the closing days of the session, but the speaker's ability to handle the situation was an agreeable climax.

Business in the senate was likewise expedited by the perfection of an organization program that kept that body from falling into serious pitfalls of dissension. In the closing days this ability to handle the hundreds of measures sent over by the house with a rapidity that even in legislative circles was unusual prevented any serious last minute jams from clogging the wheels that were exceptionally well greased.

The team of A. Boyd Hamilton, secretary of the senate, and Senator Horace Schwartz of Lehigh County, with Lieutenant Governor Arthur H. James at the helm, guided that body over the shoals on a number of occasions when serious difficulties loomed. Even the anticipated vigorous opposition that was reported to be ready to manifest itself when the Sterling four-cent gasoline tax measure came up, faded to scarcely a whisper when the crisis arose.

In contrast with many other sessions, only one bill was reported "lost" during the session of the house just ended. The bill was known as the Mansfield industrial police bill and when it came to the house after being passed by the senate it was referred to the house manufactures committee.

There was some question as to what fate would be accorded a similar bill sent to the senate by the house, and when this question came up on the senate calendar efforts were made to pry loose the Mansfield bill from committee. Representative Bickett, Lawrence County, was chairman of the committee.

At the first meeting of the committee after the bill had been reported the measure was not upon. Several members wanted to read its contents and it was passed from one to the other following the conclusion of the meeting. A few days later persons interested in the measure swooped down on Chairman Bickett, demanding that he report out the bill.

At that time he did not have the bill and did not know just who had possession of it. He did not want to tell the public that he did not have the bill and likewise did not want to give the impression that some member of the committee had "walked" away with it.

His answers to questions gave rise to the "lost" stories, and after making the rounds of members of his committee Bickett recovered the bill. He told the story of the "lost" bill just before the session ended.

both state owned and state aid, and commissions were as numerous as usual, several hundred of these measures being passed finally by both houses during the closing days of the session.

The amounts contained in the measures, however, were in a number of instances larger than in previous years. The large balance in the state treasury seemed to be the honey that brought the appropriation bees swarming around the hive, and almost every member had some form of bill which would have made an inroad into the unusually large balance.

As it is, the number of appropriation bills passed during the session was in some instances present the governor with a too serious drain on the resources of the treasury and at the same time satisfy everybody.

With the adjournment of both houses the legislative "while wings" this afternoon are busy disposing of

the more than 3,000 bills which were dropped by the wayside after they had helped to fatten the cost and block the progress of the legislative printing.

Illinois State Solons Take Rap At Prosecutors

State Legislators Of Opinion That Deputy Smith Should Be Held For Murder

ALL OFFICIALS UNDER ATTACK

(International News Service) SPRINGFIELD, Ill., April 18.—Possible impeachment proceedings against certain Kane county officials were hinted today by individual congressmen following a House vote of 21 to 50 for a legislative investigation of the dry raid slaying of Mrs. Lillian De King of Aurora.

The measure, calling for a special committee of seven to investigate the killing, was passed after two hours of bitter debate, during which the prohibition law was assailed and Kane county officials were scathingly denounced for their methods of enforcement.

Judge John K. Newhall, now sitting in the Kane county circuit court, drew most of the fire of the legislators.

Officials Criticized Attorney General Oscar Carlstrom also was criticized for failing to respond to the request of State's Attorney George D. Carberry to take over the investigation, and the prosecution, if the facts warranted, of Deputy Sheriff Roy Smith, who shot Mrs. De King.

Shafts of severe criticism were also directed at State's Attorney Carberry in the manner in which he has been conducting the investigation, and at his alleged custom of hiring "drunk-in-bums" to purchase liquor from bootleggers at \$3 a buy.

The corner's jury was also attacked for its finding of manslaughter against Deputy Sheriff Smith, and the charge was made that he should have been held to the grand jury for murder.

Electrocution was declared as fitting punishment for the slaying.

Lutton Street Storm Sewer Work Complete

Lutton street storm sewer has been built by Woods & Golder, according to City Engineer Miller who also stated that the section of South Mill street paving and curb which had been removed is now being reset. The sewer in Moravia street to Lutton was completed sometime ago and curb is being reset.

The Lutton and Moravia street new storm sewer system will prevent flooding of South Mill and Lutton streets following every storm, it is believed.

The sewer was built from proceeds of a \$50,000, bond issue.

STOP NERVOUS INDIGESTION

The excitement and strain of modern business and social life affects the stomach, causing dyspepsia, gas, heartburn and "sour" stomach. This in turn causes halitosis.

Finally, the entire system is affected. Overdosing with cathartics, digestants, liver pills, etc., only aggravate the condition.

But, DR. HOYT'S proven prescription No. 22, reaches the causes of this nervous indigestion, and gives quick relief.

This prescription is the development of 75 years of active medical practice by Dr. Hoyt. This remedy is not injurious and is not in the form of a laxative. Neither does it act on the food in the stomach, but instead removes the underlying causes by encouraging the digestive glands to do their work.

If you are troubled with stomach ills, try Dr. HOYT'S No. 22. It will keep your stomach sweet and happy. Handy pocket size, 30c. Home size \$1. At all good drug stores.

REPORTS SPREAD MEYER TO RESIGN

John D. Meyer, United States District Attorney, Will Resign, Rumors De-clare

(International News Service) PITTSBURGH, April 18.—Rumors persisted in official circles here today that John D. Meyer, United States district attorney, would resign at the close of the present term of federal court, scheduled to recess in June.

Although Meyer refused to comment on the situation, speculation was rife as to who his successor would be, as the report of his resignation has received unofficial confirmation in Washington.

Friends of Meyer predict that he will retire to private practice, as he was quoted three months ago as having said he intended to give all his time to private practice because of the salary. During Meyer's term of office the salary of the district attorney was raised from \$6,000 to \$7,000 annually.

Murder Motive Is Advanced In Death Of Woman

Believe Aged Falls Creek Woman Murdered And Home Ransacked By Robbers

CONTINUE PROBE OF GHASTLY CASE

(International News Service) DU BOIS, Pa., April 18.—State police and Coroner H. H. Lewis investigating the death of Mrs. Mary Weaver, aged Falls Creek resident, whose body was found in her home late Sunday night, still hold to the belief that the wealthy recluse was murdered, it was learned here today.

The woman was struck by some blunt instrument and she fell to the bottom of the stairway, where the body remained for several days before it was found, is the theory advanced by Dr. Lewis.

The investigation is in the hands of state police who are following several clues. Circumstances in addition to the results developed by the autopsy, have convinced authorities that Mrs. Weaver was struck after she had arisen from her bed to investigate a noise in the lower part of the 10-room house in which she lived alone.

Robbery is believed to have been the motive for the crime, although the intruder apparently fled after committing the attack, without reaching the home. Fifteen hundred dollars was discovered in the woman's room by authorities the day after the body was discovered.

Council Has Not Yet Made Decision

Members of council have not yet made a decision as to what kind of auto the city will purchase for the police department. It is probable that the city mechanic, Fred McMillen will be asked to make a recommendation. The contract however, may be awarded Friday providing council decides the kind to buy before solons meet.

Sinclair Seeks Rehearing From Supreme Court

Sinclair Counsel Files Petition Asking For Rehearing Of Case

ANSWER WILL BE GIVEN ON MONDAY

Muti-Millionaire Seeks To Escape Serving Of Three Months Sentence

(International News Service) WASHINGTON, April 18.—The supreme court is expected to give Harry F. Sinclair, multi-millionaire oil man, a quick answer to his petition for rehearing in the case in which he was sentenced to serve three months in jail for refusing to answer questions of the senate public lands committee in the Teapot Dome investigation.

Despite the fact that the high court upheld the sentence of Judge Hitz of the District of Columbia supreme court by unanimous opinion, Sinclair's attorneys filed a petition for rehearing yesterday.

Decision Monday. The high court, under its general custom of quickly deciding rehearing petitions, is expected to announce its decision next Monday.

Sinclair's attorneys, Martin W. Littleton and George P. Hoover, declared in their petition that the law under which Sinclair was convicted is unconstitutional as construed by the supreme court.

If the conviction is finally upheld, they asserted, a citizen called before a senate committee to give testimony is compelled either to permit a complete disclosure of his private affairs or run the risk of a jail sentence for refusal.

Hillsville School Ready Next Fall It Is Expected

Good Progress Is Being Made On Work At Consolidated School

From all appearances school children of Hillsville and the surrounding district will be able to enter their new 21-room school building when the next term of school opens next fall. Considerable progress has been accomplished within the past few weeks and construction work has now reached the point where the roof of the building is ready to be laid.

The consolidated school will accommodate a large number of school children in that district. The new brick structure is fireproof in construction and of the most modern school building design.

An auditorium is being provided as well as a gymnasium, something that the Hillsville district has not had direct advantage of before. Each of the classrooms are of standard size and will provide ample room for the entire Hillsville school district.

The fact that the building is resting upon 25 concrete piles, or upon filled in ground, is an interesting feature regarding the construction work. It was necessary to establish piles before the new building could be started as all the ground where the structure now stands was filled in especially for this purpose. It was once the site of an old quarry.

Rumor Sinclair Loses Control Of Oil Company

Rumor Says Group Of Capitalists Has Control Of Company

(International News Service)
NEW YORK, April 18.—Harry F. Sinclair, millionaire sportsman and chairman of the Sinclair Consolidated Oil Corporation, has lost control of the company bearing his name and will be supplanted at an early date as chairman of the Mammoth Oil concern he founded in 1919, according to reports circulated in Wall Street today.

Sinclair's three-month jail sentence imposed for contempt of the United States Senate was recently upheld by the superior court.

A group of capitalists, said to include Blair & Co., Inc., New York bankers; Arthur W. Cullen, Chicago financier; and the Fisher Brothers, Detroit automobile magnates, is reported to dominate the company's affairs.

Marvin W. Littleton, Sinclair's attorney who has filed a petition for rehearing in the contempt case with

the supreme court in Washington, denied Sinclair's status as chairman of the company had been changed but was silent concerning his client's plans.

Rumors that the reported change in the company's personnel would bring about the ouster of the chairman, recently ousted as chairman of the Standard Oil company of Indiana by John D. Rockefeller, Jr., in the famous "battle of proxies," gained little credence in financial circles here.

Rooms All Taken In Both Hospitals

Physicians who have been having trouble in securing rooms for patients at local hospitals will welcome the opening of the new Jameson Memorial hospital.

At present every room in the New Castle hospital and every room in the Shenango Valley hospital is occupied. A number who have desired rooms within the past few days have been unable to secure accommodations except in the wards, and there is very little room in them. Ward patients who desire rooms must wait their turn. Usually a room can be secured at one of the hospitals, but every room is taken, with a number of patients on the waiting list today.

Body Of Drowned Man Not Found

Body of Michael Shornack of Charles street, drowned Saturday night in the Shenango river near the Carnegie steel plant, is still missing today, in spite of continued efforts on the part of the authorities and others to secure it from the deep waters of the river at the point where it was last seen. Some are now of the opinion that it may have floated down the stream, although the majority of people are still of the opinion that it is in the deep hole in the Shenango river near where he was seen to sink for the last time.

YOUTHFUL CHECK PASSER CAUGHT

Police Apprehend Youth In
Seventh Ward On Bad Check
Passing Charge

A youthful bad check passer, who claims his home as being at 10 South Charles street, Akron, O., and gives the name of Harrison Burnham, was apprehended this morning on Liberty street by Detective John Young and Officer Thomas Lynch after he had successfully negotiated the passing of two of four checks, which he had prepared to be passed.

The Akron authorities have been asked to look up his alleged home in Akron, O., and the local authorities are holding him in the city jail here, while making still further local investigation.

This young man, who is about seventeen years of age, claims to have arrived here yesterday. This morning he went to the Mahoning Bank in the Seventh ward and secured a book of checks. He then went to the B. & O. station wrote four checks, which he then started out to cash.

He went to the place of Tony Riccio, 212 Lafayette street, and purchased a pair of shoes and a pair of socks valued at \$5 for which he gave a check for \$6.50 in payment receiving the change in cash.

He then went to the Adams Clothing company store on North Liberty street, made some purchases and presented a ten dollar check in payment. Mr. Adams investigated at the bank, where it was found there was no account for the young man and the bank then called the police.

The officers soon located him, and secured the return of the goods and cash received in change. They also found on two other checks ready for use, on his person, also the balance of the book of checks.

PEOPLE AS HAPPY AS BIRDS IN SPRINGTIME

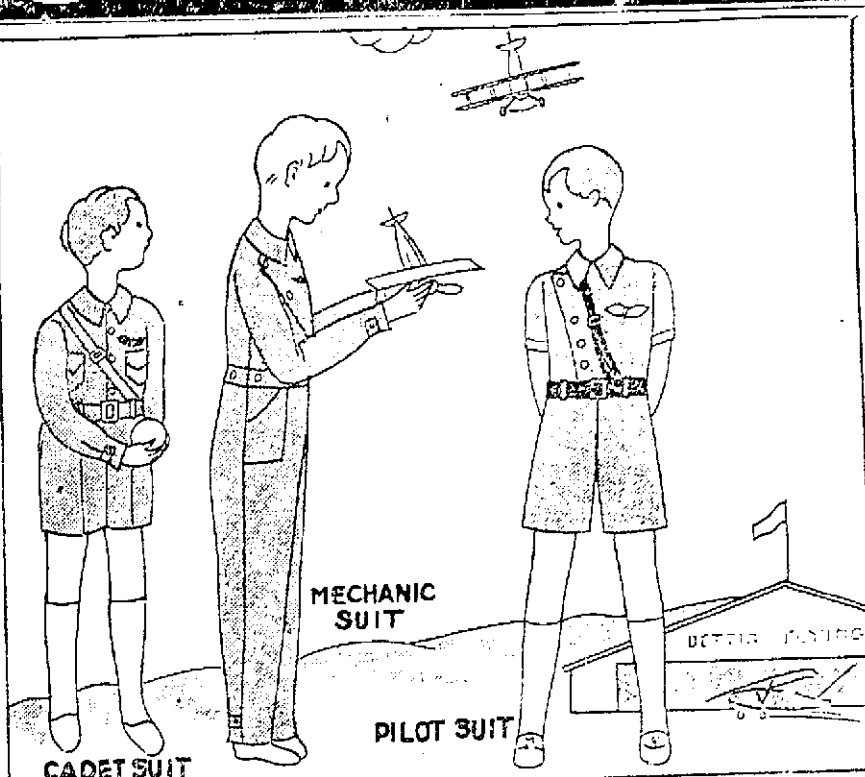

No Reason Why Anyone Should Suffer From Spring Fever, Says
The World's Tonic Man

"When the warmth of Spring is felt, everything in Nature changes. All vegetation pulses with activity. Animals become brighter, and are more active. Why, then, is it that man alone suffers from so-called 'Spring Fever'?"

That question was put to the World's Tonic man a few days ago. Instantly he answered: "If men lived like the animals they wouldn't have spring fever. But since they eat heavy food all winter, and keep in the house, their organs fail to throw off the waste matter and impurities. Then when Spring is at hand, they feel like they couldn't move, and want to lie down and sleep. No wonder. Their systems are full of waste, the blood carries a lot of impurities, and often shows its condition in eczema. What man needs then is something that will clean his blood, correct the catarrhs, troubles, and give vigor and pep. Why, thousands of people take two or three bottles of World's Tonic every Spring in order to help purify the blood, correct the catarrhs and to help regulate the bowels and the system. You can come pretty near telling such a man by his clear eye, springy step and vim that all you who have Spring fever would do that, this action would be as happy as the birds in Spring."

World's Tonic is sold by McKeen's Kew-Bate Store, Eckerd's of New Castle, Inc., Fairview, Smith's and all other good druggists. (A-165)

Coal Company Changes Wages

Wage Scale Is Reduced Slightly; Store Prices Also Reduced

(International News Service)

PITTSBURGH, April 18. — The Pittsburgh Coal Company, one of the largest producers of bituminous coal in the world, has effected a wage scale reduction in its twenty mines in this region ranging from approximately seven per cent to two per cent in various types of mine labor, International News Service learned today.

The Pittsburgh Coal Company's action in reducing wages followed closely upon similar action by the Carnegie Coal Company.

J. A. D. Morrow, president of the Pittsburgh Coal Company, said that the following were typical basic reductions:

Outside men—From \$4.08 per day to \$4.00 per day.

Inside men—From \$4.72 per day to \$4.64 per day.

"The change in wage scale has been made only after previous reductions by our competitors both here and in the West Virginia field forced us into it," Morrow said.

At the same time Morrow said that there had been a ten per cent reduction in the prices of all state commodities sold in company stores.

The Pittsburgh company's reduction went into effect yesterday, while C. C. McGregor, receiver for the Carnegie company said his company's scale was effective as of April 16.

While McGregor said simply that there had been a "slight reduction," Morrow said that the change in scale by his company was effective only after competing companies had been re-

ducing wages over a period of several months.

"Wages in some mines in West Virginia are down to \$2.80 a day," Morrow said. "We were losing so much business we were forced to make the adjustments."

"I hoped it wouldn't be necessary, but there was nothing else left to do. It should be understood, however, that these adjustments are basic only where we have exceptionally good men employed in our mines, their wages are not reduced to the minimum. We will continue to pay a premium for good men. This adjustment is left to the operating officials in each individual mine."

"West Virginia operators, with their lower wage scales, had forced us to our knees," McGregor said in commenting on his company's reduction of wages. We had to make the adjustment."

Both the Pittsburgh and Carnegie companies had been paying the 1927 scale of wages prior to the cut. Both operated open shop.

Add Slangage

British Prof Works On American Dictionary

By ROY J. GIBBONS, Central Press Staff Writer.

CHICAGO April 18.—Modern youth is rewriting the dictionary and all the king's philologists and lexicologists can't prevent it.

It may take a century or so to encompass it but the shop girls and their wise-cracking boy friends who are giving birth to such expressions as "baloney," "razzberries" and "bimbo" today will have their slang in the dictionaries of tomorrow.

There is no doubt that it is the young people with their reckless use of all kinds of slang terms who give life and spirit to the language and make it an effective medium for conveying thought according to Professor Sir William A. Craigie, M. A., Litt. D., of Oxford University who is now working on an American dictionary at the University of Chicago.

Isn't it the truth!

Professor Craigie is regarded as the greatest dictionary-maker in the world, and he ought to know.

Approves Slang Terms.

"I thoroughly approve of American slang," he says. "It is often carried to excess but many current colloquial phrases are extremely apt and with the admiration of even the most strict jurist."

"The real test of slang is in its utility. If a slang phrase fills a long felt want it will cease to be slang and will go into the language. There are American expressions of comparatively recent vintage which have already been adopted wherever English is spoken and they are so particularly expressive that one wonders how the idea was expressed before they were invented."

"An instance of this is the phrase, 'It's up to you.' There is no other group of English words to convey so concisely this exact shade of meaning. Slang phrases of this kind must obviously be included in a dictionary of American English."

U. S. Dictionaries Incomplete.

Webster's dictionary has become obsolete in many respects according to Prof. Craigie. Besides being incomplete in its picture of the American language at the time it was finished in 1828 it was actually supercilious toward good American words. It omitted such terms as prairie, pale-face, pecan, political platform, pow-wow, punk and pone, except in a supplementary list.

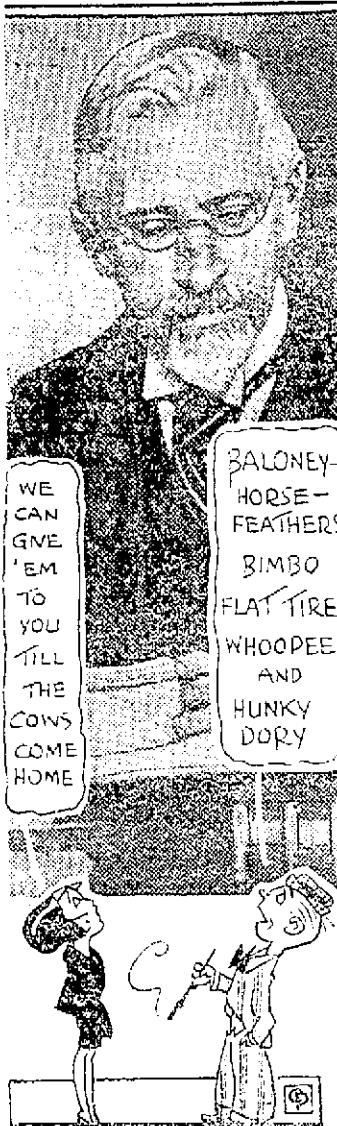

Not only did makers of American dictionaries from Webster on ignore many perfectly good American words but they ascribed many Americanisms to English origins.

Professor Craigie is here to rectify all these matters. Already he has been at work at the University of Chicago two years on his Historical Dictionary of American English. He still has about eight years of labor ahead of him, excepting from the 17th century on the works of prominent authors as well as those of minor writers, documents, books of travel and description, newspapers and periodicals, advertisement sheets and text books.

Professor Craigie knows his p's and q's. As Oriel professor at Oxford he was knighted by King George for his work in bringing the Oxford dictionary to completion. The Oxford dictionary contains a record of 414,825 words with 228,000,000 letters and figures for the whole and Sir William edited the final sixth of it.

Now he's engaged in another gigantic task and he's going to include in his American dictionary a whole raft of words and expressions that never saw themselves in dictionary print before. Among the expressions which were once slang but which will be considered such no longer are "to take one's pile," "to strike off," "to trade off," "to take a back seat," "boos," "to catch on," "to caven," "to face the music," "to have a good time," "to run for office," "to stomp," "Uncle Sam," "square meal," "almighty dollar" and "tight place."

And that's only the beginning. It may take some few years more to get "flat tire," "hunky dory," "bozo," "bimbo," "hot dog" and the long lists of other pointed expressions of the steno and the dance hall, the drugstore cowboy and the sheik into print but they are bound to get there.

Two Tennis Matches Played In Y. W. C. A. Indoor Tournament

Graham And John Winners Of Matches Played Wednesday Evening

Two matches in the Y. W. C. A. indoor tennis tournament were played off Wednesday evening on the Y. W. floor.

The first match was between Miss Vivian Graham and Miss Irene Luffy. Vivian plays a nice steady and exceptionally good game for a beginner. Score first set 6-4; second set 6-2, both for Graham.

Contestants in the second match were Miss Lena John and Miss Flora Lehman. Players were equally matched, but Miss Lehman was a little slow in getting the return balls. Score in both sets played was 6-3 in favor of John.

This evening there will be a match played between Miss Martha Smith and Miss Hilma McFarland.

Councilmen Fail To View Section

Although City Engineer Miller invited councilmen to visit the seventh

ward to view the section flooded after each storm, councilmen have not yet made the view. Miller presented a plan recently which he said he believed would relieve the situation. He would open the sewer near the Mahoning river and raise manholes. Following the last storm a lake formed and conditions were not sanitary.

Elihu Root Is Now Back Home

United States Member Of World Court Returns Home Aboard Liner Wednesday

NEW YORK, April 18.—Elihu Root, 84 and hale and hearty, returned Wednesday on the Ile De France, confident that the way has been paved for the admission of the United States to the World Court.

The following paragraph in a prepared statement, issued through the Carnegie Endowment for International Peace, was considered significant: "The committee has framed a brief agreement based upon an acceptance of all the senate reservations and providing for the application of the reservations to particular cases as they arise. This agreement, in the form of a protocol to be annexed to the statute of the court, will, in the opinion of the committee, protect the interests of all parties concerned in the practical application of undisputed principles of action. This proposed protocol has been or is about to be communicated to all parties concerned."

Mr. Root who has been in Geneva attending the International Commission of Jurists, was met at the pier by his son Elihu Root, Jr., and many friends. His statement describes the work of the court abroad and "the cordial expressions by all parties now supporting the court of an evidently sincere wish for the co-operation of the United States."

Border Patrolman Is Found Guilty

DETROIT, April 18.—Lemarr H. Smith, the second of 20 customs border patrol inspectors to stand trial before Federal Judge Charles C. Simons for accepting rum runners' bribes, was found guilty Wednesday by a jury. He was given a sentence of two years and a fine of \$5,000. The minimum sentence that could be imposed.

Air Mail Field Near Mercer Being Improved By U. S.

Big Increase In Amount Of Air Mail Shown; News Of Mercer

(Special To The News)
MERCER, Pa., April 18.—The increased popularity of airmail with the United States postal department is concretely told in a comparison of the records of the number of pounds hauled when the service went into effect in 1918 and now.

The poundage is that delivered in New York on the airmail course between that city and Cleveland. When the airmail route was first instituted the average delivery per ship was 30 to 100 pounds, that of today is from 1000 to 1200 pounds.

Night flying was not instituted until 1925. It was made necessary due to the increased business. The delivery of mail in Cleveland from New York would be half this poundage due to the fact that the mail out of New York for the west is from that city alone while that taken into New York out of Cleveland is an accumulation of mail from all parts of the nation.

During the Christmas season rush six ships were required often to take the mail into New York. As each ship can carry over 1000 pounds some idea of the business done may be gained.

Often it is stated two ships are required to take in the New York mail. There are two mails a day each way, leaving at 12:15 a. m. and p. m. from New York and Cleveland.

Mercer has one of the most important stations on the airmail course. The government is now building a new station house and making improvements on the field which will give the town the best equipped airport of any in the county.

The field is for use of anyone desiring to land or take off, the only restriction being it cannot be used for commercial purposes.

HOSPITAL NEARLY DONE
Occupancy of the hospital at the country home for the chronic sick is expected to take place on June 1. It is announced today by members of the board of directors.

The completion of the building is being pushed as fast as workmen can put on the inside finish. The terrazzo floors in the halls and bathrooms are now being laid. The marble wainscoting has already been placed.

The bathroom fixtures are yet to be placed as well as the installation of the kitchen equipment. The date of June 1 will be ideal for moving into the new hospital, says Superintendent T. O. White, for the charity year begins on this date and the patients that will be charged for their care will all be included in one fiscal year.

GRANGE TO MEET
The Pomona grange of Mercer county will hold its next monthly meeting on the date of May 2 at the Pleasant Ridge grange hall. It is announced by the secretary.

TO GET THIEVES
It is the intention of county police to cut down on the number of cars stolen from parking locations this summer.

The car thieves are boys between the ages of 15 and 25 years. They are stolen for two reasons, joy riding and for sale of accessories. County Detective Sam Leyschock states that the number of cars being stolen has been reduced in the last year. More careful observation on the part of the police has made this possible.

With the arrival of hot weather is the most dangerous period of the year, says Leyschock.

Council Members To Meet Friday
An open meeting of the executive cabinet of the New Castle Young People's Inter-Sunday School council will be held at the Y. W. C. A. on next Friday evening April 19 at 7:30 o'clock. Every member of the council is urged to attend.

Among the matters that will be up for consideration at this time will be financial projects and other matters now being contemplated by the council.

Lady's Health Restored By Ten Herbs; Husband Also Benefited.

Every day brings forth more praise for Ten Herbs from men and women of this locality. They tell how this celebrated new natural medicine helped them back to health and happiness—many claim that it was the only thing that gave them long-

MRS. C. B. GEISEL

sought relief. Ten Herbs is a scientific compound of ten wonderful herbal ingredients—medicinal extracts of roots, herbs, bark, and leaves, each of which has a highly beneficial action on one or more organs of the body. If you suffer from stomach, liver, kidney or bowel trouble, rheumatism, neuritis, nervousness, or feel weak and all run-down, start taking Ten Herbs today, or at least learn more about it by calling on the Ten Herbs Man, who is at Eckerd's of New Castle, Inc., 30 East Washington Street, this city, where he is daily demonstrating this popular preparation.

"Ten Herbs restored me to good health," was the recent statement of Mrs. C. B. Geisel, Route 6, Box 127, Greensburg, Pa. "I had been troubled with severe pains across my back, and was badly constipated. Since being in an auto wreck about a year ago, I have been very nervous and subject to weak spells. I could not get restful sleep. I also had been a sufferer from indigestion for a long time."

"My husband was taking Ten Herbs for stomach and bowel trouble, and he was getting such good results that I started using your medicine. My health has improved wonderfully. The pains have left my back, and those weak spells do not trouble me any more. I sleep soundly, as I feel free of nervousness. My appetite is good, and I am rid of stomach trouble. My bowels are regular. Others suffering like I was should not fail to give Ten Herbs a trial at once."

Ten Herbs is a splendid spring tonic for every member of the family. Being herbal, it cleanses the whole system—eliminates poisonous waste matter and impurities—enriches the blood and imparts new bodily vigor. The Ten Herbs Man is at Eckerd's of New Castle, Inc., 30 East Washington Street, this city, where he is daily meeting the public and explaining the merits of this medicine.

Lamont Describes Big Export Trade

(International News Service)
BALTIMORE, April 18.—American exports amount to about 16 percent of the total of foreign sales of all countries while at the same time Americans purchased 13 per cent of all the commodities sold abroad by other nations, Secretary of Commerce Lamont declared Wednesday at the National Foreign Trade convention.

"We export more than any other country, surpassing the United Kingdom by 25 per cent but our imports are considerably less than those of that country," Lamont said.

Describing the changing character of American trade, Lamont said that while formerly agricultural commodities made up two-thirds of the exports the present ratio is but 37 percent. Manufactured goods have taken their place.

As to imports, the big advances have been made in silk, rubber, paper and furs, "all articles having to do with advanced needs and high living standards" according to Lamont.

Ruperts Death Held Accidental

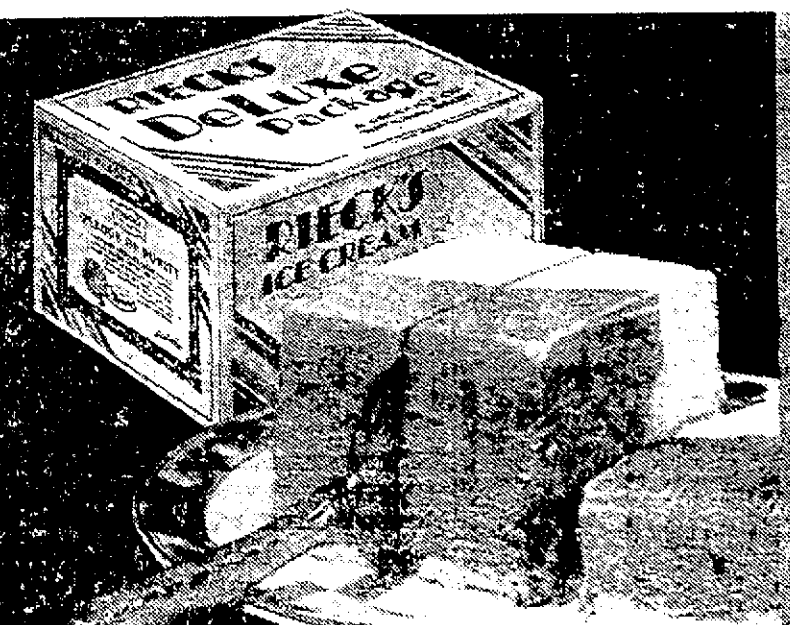

TIONESTA, Pa., April 18.—Accidental drowning was the verdict given in the case of O. E. Rupert, widely known Portkey resident whose body was found in Tionesta creek below Keokauville. The verdict was rendered by Forest County Coroner Kenneth Haslett. Finding of the body brought to an end the search which has been conducted ever since his disappearance on the evening of March 17 while he was walking from Mayburg to his home at Portkey a few miles distant.

Mr. Rupert was widely known as a news writer and a musician. He was an employee of the National Transit Co.

BUSINESS CONSCIENCE

Bridge contractors, building the great suspension spans across the Detroit river from Detroit to Windsor, take a million-dollar loss rather than turn over a completed bridge concerning the safety of which there might be the slightest question. The opening of the bridge will be delayed six months while new cables are put in. The contractors are not satisfied with the present ones. There is nothing astonishing about this. It is average American practice. It is both good business and good conscience. The best American business man is interested in more than speed and profits.

\$200 A YEAR TO \$200,000

Let us study the case, for a moment, of Frederick H. Ecker, new president of the Metropolitan Life Insurance Co. He started in with that company many years ago as an office boy at four dollars per week. He has now arrived at the top. His salary is \$200,000 per year. We should be interested in Ecker's plan. After high school he made an important decision. He decided he needed more education. He got a job and he continued his studies at night school. At his job, in an office, he came into contact with big men, successful men. He observed them and he applied himself vigorously. He made his way. It can be done.

MOTORS AND ROADS

Motor Car builders are watching the scientists. They are alert for new methods, new kinds of cars. The front wheel drive is under experiment for regular passenger cars. Other innovations are in the offing. Nobody is sorry to hear this, but people would be more glad to hear about more speed in road improvement, road widening, road building. Despite so much activity in the past few years, a small per cent of country roads are paved. Few are wide enough. Many are not half wide enough. The truck and bus traffic is making the average road unsafe for the man who drives his own small car. Road building in America ought to be one of the major concerns of the United States government and of every state government in the next few years.

TOO SATISFIED

Mr. Patterson, head of the National Cash Register Co., Dayton, returns from Russia and reports that country satisfied with the government. The government controls everything, he says. There is nothing but government. It is better for

Are You Ready

When your Children Cry for It

Baby has little upsets at times. All you can prevent them. But you can be prepared. Then you can do what any experienced nurse would do—what most physicians would tell you to do—give a few drops of plain Castoria. No sooner done than Baby is soothed; relief is just a matter of moments. Yet you have eased your child without use of a single doubtful drug. Castoria is vegetable. So it's safe to use as often as an infant has any little pain you cannot put away. And it's always ready for the cruelest pangs of colic, or constipation, or diarrhea; effective, too, for older children. Twenty-five million bottles were bought last year.

the people to be satisfied than to be in full and bloody revolution, as they have been in the past. But to be satisfied, as Mr. Patterson says they are, is not a healthy and proper state. What is that kind of government doing for the development of the individual? What is becoming of man himself? What is the effect on his character when individual initiative is not expected or desired?

Missing Aviators Reported As Safe, Forced To Descend

(International News Service) VANCOUVER, B. C., April 18.—Concern over the plight of Captain Parker D. Cramer of Clarion, Pa., and W. S. Gamble of Chicago, who failed to arrive at Prince George B. C., after taking off from Edmonton, Alta., Tuesday afternoon, was dispelled Wednesday after word was received here from Jasper Park, Alberta, that both were safe after a forced landing. Their plane was forced down near Lucerne on the summit of the Rockies, the report stated. A landing was made without damage to the ship. They will remain at Jasper Park until the termination of a snowstorm before resuming their flight. Cramer and Gamble are en route to Alaska from Chicago. The purpose of their mission was not made known.

Science Reads Pueblo History By Tree Rings

By EDWARD MAYL
International News Service Staff
Correspondent

WASHINGTON, April 18.—Tree rings dug from the hearts of ancient logs and beams are telling the history of the old southwest pueblos to a group of specialists of the National Geographic society. They have progressed so far in their researches that they have traced an unbroken sequence of "annual tree rings" to A. D. 1260. Another series has a prehistoric sequence of six centuries and it is believed that a gap of 150 years between these sequences will soon be closed.

The story of this research into the records of the pre-historic Indians was told here recently when the National Geographic society announced a grant of \$5,000 through its president, Dr. Gilbert Grosvenor, for the study of these old beams and timbers.

Accurate Calendar.
A more accurate calendar of the happenings of the old southwest than we have of the Egyptians or the Mayas has been untold through the work of these explorers, the society declared upon awarding the grant.

The work is built on the fact that every growing tree leaves in its trunk a ring for each year; and on the further fact that each of these rings has an individuality all its own—a different width, a different character resulting from different climatic or seasonal differences.

All trees in a different region, these

explorers agree, show the same ring sequences, and some of the rings deposited in a particularly characteristic season of drought or moisture, stand out so plainly that it seems almost that nature had plainly marked the ring "This was the year A. D. 1256."

The discovery of the famous ruins of Pueblo Bonito in New Mexico, one of America's earliest known apartment houses, marked the beginning of the tree ring researches.

Interesting Facts.

Though the discovery of Pueblo Bonito unfolded many interesting facts about the customs and manners of the 2,500 people who dwelt there, the time of their occupancy remained a secret. When some of the supporting beams in Pueblo Bonito's apartment houses were saved they exhibited the characteristic rings. It was then the idea was conceived of tracing a tree ring calendar from the present to the days when the beams of Pueblo Bonito were growing.

Dr. Albert E. Douglass of the University of Arizona was in charge of researchers who discovered the two sequences. The prehistoric sequence of six centuries, is the one which includes the tree rings found in Pueblo Bonito.

Checks through pottery and other knowledge lead to the belief that these sequences are divided by only about 150 years. When this chasm of years is actually spanned by the tree rings' story, the researchers believe, the actual date of the erection of Pueblo Bonito will be known.

ADMITS SCENE IN 'THAIS' IS DROPPED

Chicago Opera Management Explains It Has Been Done For 20 Years

CHICAGO, April 18.—Editorial shears applied by Mary Garden to the opera "Thais" nearly 20 years ago were blamed by the Chicago Civic Opera company today for what it termed an operative tempest that has been singing in teapots from Amarillo, Tex., to Chicago for the last month.

Mayor Ernest Thompson of Amarillo set the Texas pot steaming again yesterday with a charge that the touring opera company clipped a scene from "Thais" on the Amarillo stage and forfeited its right to the full purse guaranteed. He dared the company to collect the \$1,600 balance in the courts.

The opera management acknowledged today that a scene from the final act was deleted. But it added that the missing scene has only once been played in America and that at the initial production at the Manhattan Opera house in New York when Oscar Hammerstein presented Mary Garden and M. Renaud in the leading roles.

After the performance the two singers proposed to drop the eleven-minute scene a repetition of themes running through the first act and Hammerstein agreed. "The following summer when Miss Garden returned to France" the opera company explained today "she and M. Renaud went to Massenet the composer with the same statement. "Massenet told them he had always known there was something wrong with the last act and that they had put their fingers on it. He agreed to the cut."

Since 1910 the original version has never been sung in America and in all Italian theaters, the Paris opera and on the South American stage the score is sung as the Chicago Civic Opera company sings it the management declares.

The company admitting it held a post-dated check for \$2,500 from the Amarillo guarantors which has been protested and remains unpaid did not announce what its attitude toward the claim would be.

OPEN SAFETY PIN IS TAKEN FROM LUNG OF BABY IN ALBANY

ALBANY, N. Y., April 18.—Lola Jane Rutledge, seven months old, played about a local hospital today, oblivious of the anxious hours passed by a staff of specialists who removed an open safety pin from her lung, scarcely an inch from her heart.

The baby swallowed the pin a week ago. Physicians watched anxiously for a chance to operate when the prong would be turned from a vital spot. In desperation they resorted to a delicate operation with the bronchoscope and removed the dangerous object.

Physicians said the operation was one of the most delicate on record because of the age of the baby and the delicacy of the organs.

MOTHER FINDS CHILD DEAD IN TUB OF WATER

McKEESPORT, Pa., April 18.—Falling into a tub containing only three inches of water, Frank Rossi, 18 months of age, was drowned at Vista, Pa., the son of Mr. and Mrs. Dominick Rossi, had been playing in the yard of his home across the Youghiogheny river from Buena Vista.

The baby had evidently fallen face foremost into the tub, for his mother found him in that position with his feet protruding over the edge. He was dead when discovered. The Rossi family moved to Vista from Punxsutawney three weeks ago.

MISSED THE DOG BUT UPSET BUS

BROWNSVILLE, Pa., April 18.—George Hannon, a bus driver, and three South Brownsville high school students were injured when the driver swerved the bus to avoid striking a dog here today, and the vehicle overturned. None was seriously hurt.

No Shortage Found But Bank Manager Is Still Missing

YOUNGSTOWN O., April 18.—Mystery surrounding the disappearance of Carter C. McConnell, 44, secretary and manager of the McKinley Savings and Trust company, Niles, last Monday night deepened today. An audit by a state examiner has failed to reveal any shortages or defects in his accounts. The institution has 5,000 depositors with deposits of more than \$1,000,000 and a surplus of \$1,500,000.

A run on the bank was started yesterday when depositors learned that the state was checking its accounts and large sums were withdrawn. Radio stations were invoked last night in the search for McConnell.

Directors of the bank and members of McConnell's family can assign no reason for his mysterious departure.

Difficulties Of United States Supervising Mexican Election Outlined By Correspondent

By CHARLES F. STEWART
Central Press Staff Writer
WASHINGTON, April 18.—Nicaragua's population is a little more than 600,000.
Mexico is considerably more than 14,000,000.
Obviously it would be harder for Uncle Sam to manage a national election in Mexico than he found it to manage Nicaragua's last national election.
Arithmetically it would be more than 23 times harder.
Really, it might be harder than that.
Uncle Sam encountered only General Sandino's opposition in Nicaragua. In Mexico he would be sure to encounter almost the whole people's.
Besides, there is much more territory to cover in Mexico.
Nicaragua is about the size—and size-of the ninth, fourteenth and fifteenth congressional districts of Texas. Mexico is 10,000 square miles larger than the combined states of Texas, New Mexico, Arizona, California and Oregon.

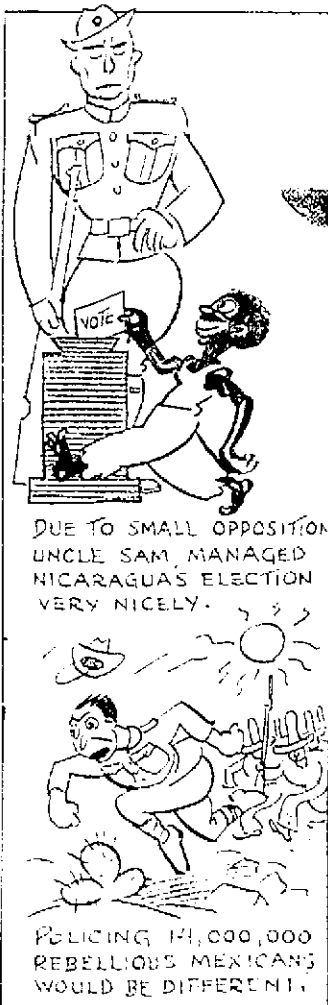

Nevertheless, because of the now-raging anti-government uprising in northern Mexico it is beginning to be suggested in Washington that it would be a good thing for the United States to take charge of the coming presidential election south of the Rio Grande.
It may or may not be significant that Secretary of State Henry L. Stimson is the same man who arranged American electoral supervision in Nicaragua.

President Hoover has not expressed himself hitherto much like an executive of interventionist tendencies in Latin-American politics.
Still, he did pick Colonel Stimson as his state secretary, in the full knowledge of the colonel's reputation as a fixer of elections in foreign republics—for their own benefit, of course, but backed up, just the same, by United States marines.

A few thousand marines were enough to turn the trick in Nicaragua.

Nobody pretends that the entire marine corps could do it in Mexico. Indeed, nobody pretends that Uncle Sam could intervene in Mexico at all without, in all probability, starting a war.

It would be a small war—as an organized war.
American warships would control the Mexican coast and American

DUE TO SMALL OPPOSITION UNCLE SAM MANAGED NICARAGUA'S ELECTION VERY NICELY.

Secretary of State Henry L. Stimson

troops would occupy all important Mexican cities in short order, unquestionably.

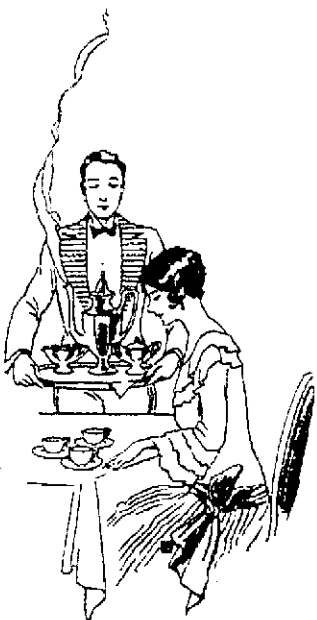

"Pacifying" the republic would be different.

Policing 14,000,000 rebellious Mexicans, scattered over 767,300 mountainous, desert and jungle-covered square miles—well, it needs no argument to prove that it would be a monumental chore.

How many men it would take—a million, maybe—or how long it would last—perhaps years—is anybody's guess.

cut off their payments and leave Mexico in no condition to start paying again.

The bankers' and the land-oil group's game see-sawed in Washington.

First the land-oil folk, by stirring up Mexican uprisings, precipitating anti-American outrages and setting President Calles and Secretary Kellogg by the ears, would seem about to compel intervention and hostilities. Then the bankers would head them off.

Finally the bankers got tired of it. In the last analysis they were stronger in Washington than the land-oil crowd, but the latter had a very serviceable collaborator in Mexico City in the person of United States Ambassador William R. Sheffield.

The bankers put the skids under Mr. Sheffield as ambassador and had Dwight W. Morrow, previously of the house of Morgan, substituted for him. Thenceforward peace reigned for a long time—for Mexico.

The present Mexican uprising started in a way it is difficult to account for.

It threatens, once more, to force American intervention.

As yet we know to a certainty only one thing. We know what interests advantage will be served by American intervention in Mexico.

May In Charge Of Highland Meeting

Highland Scouts Pass Many Tests At Meeting Tuesday; George May Presides

The Highland Boy Scout Troop No. 18 held a very successful meeting Tuesday evening in the Highland Caves with Scoutmaster George May presiding. Committeemen Kells and McGroth were present. Troop officers present were Assistants Bolt and Seyfert Jr., Nesbit and Gates, Senior Patrol Leader Jack Stevenson and Patrol Leaders Trodden, Hawkins, Cole and Winter. Alfred Howard was a special guest.

Following the opening ceremony, Scoutmaster May collected the dues from the patrol leaders. The patrol held short meetings in their corners while several boys passed tests. Howard Gates passed the Merit Badge in Public Health and Chemistry. Jack Stevenson passed Chemistry.

During the past week each patrol held at least one meeting while the Mink Patrol held two.

The patrols are working hard for the patrol contest which ends in three more weeks. The prize for the winning patrol is \$5 given by Committeemen Wallace to be used for patrol equipment. The Raccoon Patrol, Tom Trodden patrol leader, is in the lead with 2,500 points; Mink Patrol, Tom Hawkins patrol leader, is second with 1,800 points; the Fox Patrol, Jack Cole patrol leader, has 1,500 points and the Bear Patrol, Tom Parlett patrol leader, has 850 points.

Assistant Scoutmaster Seyfert conducted the game period. The principle game was boxing. There were four matches, two between the lightweight and two between heavyweight. Charles Slack was the champion of the lightweight and Elmer Hulme was the heavyweight champion.

Following the meeting of the Second Camporee team was instructed by the first team.

The Second Camporee team will hold a meeting Thursday night at 7:30 at the home of Jack Cole. Members of the First Team will hold its first outdoor meeting Friday at 4:30. The members are requested to meet at the home of George Winter.

Scribe—Jack Stevenson.

HOG ROOTS UP BURIED TREASURE, CAUSING LAW SUIT

BROWNSTOWN, Ind. April 18.—If a farm tenant's hog unearths a treasure chest, does the money belong to the tenant or the farm owner? That was the perplexing question before the Jackson County Circuit Court here when James A. Hamner sued his tenant, Bruce Brown, to obtain \$500 contained in a pot which was unearched by a hog in an old woodshed. Brown promptly rescued the 500 silver dollars from the hog and deposited it in the bank.

Hamner claims that he buried the money some time ago for safekeeping.

House Starts Consideration Of Farm Relief

Eight-Year-Old Farm Relief Problem Taken Up In House Session Today

LEADERS PREDICT EARLY ENACTMENT

Senate Agricultural Committee Wrestles With Different Measure

By WILLIAM K. HUTCHINSON
International News Service Staff Correspondent
WASHINGTON, April 18.—The eight-year-old farm problem, which prompted President Hoover to summon Congress in special session, occupied the spotlight today as the House began consideration of its new relief bill, while the Senate agriculture committee met to report a different measure.

In the House administration leaders were predicting enactment within a week of the \$500,000,000 relief bill which is said to have the President's approval. The measure would establish a federal farm board, encourage co-operative marketing and pledge government funds to aid co-operatives and farmers' organizations in marketing surplus crops.

The Senate committee apparently favors adding an optional export bounty plan, commonly known as the debenture plan, to its draft of farm relief. The Senate bill would create a farm board, similar to the House measure, but it would provide only \$325,000,000 for financial relief. The debenture plan, under which tariff revenues would be used to pay farmers a bounty on exported surplus crops in times of emergency, has had a cold reception at the White House.

Stumbling Block
The bounty proposal may prove a stumbling block to the administration. Thus far Mr. Hoover has remained silent about it while farm organizations, particularly the National Grange have demanded it as the one real form of agricultural relief. If the Senate should approve it, there may be quite a dispute between the two branches of congress, since Mr. Hoover can and will control the house, and therefore could prevent its acceptance in the lower branch of congress.

The Senate met today chiefly for the introduction of bills and resolutions, with administration leaders hoping that the farm bill would be formally introduced. It was the plan of leaders to adjourn until Monday when debate would be started on the farm bill.

Hoover Backers Confident
In the house, backers of the "Hoover Plan" were confident that they could beat off attempts to substitute either the debenture plan of the old McNary-Haugen bill with its equalization fee.

Rep. Haugen (R) of Iowa, chairman of the house agricultural committee, announced that a point of order

How One Woman Lost 20 Pounds Of Fat

Lost Her Double Chin
Lost Her Prominent Hips
Lost Her Sluggishness

Gained Physical Vigor
Gained In Vivaciousness
Gained A Shapely Figure

If you're fat—first remove the cause!
KRUSCHEN SALTS contain the 6 mineral salts your body organs, glands and nerves must have to function properly.

When your vital organs fail to perform their work correctly—your bowels and kidneys can't throw off that waste material—before you realize it—you're growing hideously fat!

Try one quarter of a teaspoonful of KRUSCHEN SALTS in a glass of hot water every morning—in 3 weeks get on the scales and note how many pounds of fat has vanished.

Notice also that you have gained in energy—your skin is clearer—your eyes sparkle with glorious health—you feel younger in body—keener in mind. KRUSCHEN will give any fat person a joyful surprise.

Get an 85c bottle of KRUSCHEN SALTS at Eckerd's of New Castle, Inc., or any drugstore (lasts 2 months). If even this first bottle doesn't convince you this is the easiest, safest and surest way to lose fat—if you don't feel a superb improvement in health—so gloriously energetic—vigorously alive—your money gladly returned.

would be raised against the debenture plan as a substitute on the ground that it is not germane to the bill under consideration. This point of order was sustained in former farm relief fights, he said.

It was admitted, however, that the equalization fee plan would have to be considered if it is proposed.

Under the plan of house leaders there will be general debate for three days, reading of the bill for amendment on Monday and probable passage by Tuesday or Wednesday. Any great demand of members for time, however, will result in continuation of the general debate.

Pymatuning Dam Appropriation Is Up To Gov. Fisher

Calls For Half Million For Project But This Amount May Be Cut Down

The Fay bill, calling for an appropriation of \$500,000 for the Pymatuning dam project, has been passed by both houses of the legislature and is now up to the governor for his signature. Should he approve the bill as passed it would mean that about \$300,000 would be expended for additional land and that \$200,000 could be utilized toward actual construction work.

Governor Fisher, however, is faced with paying several millions of dollars from the expenditures authorized by the legislature, and whether or not the full amount authorized can be secured for Pymatuning dam is problematical. He will act on the bill within the next 30 days.

It is expected that the building of the dam will be of great advantage to industries of the Shenango valley.

Rose Christopher Missing From Home

Father Seeks Assistance Of Authorities In Locating Daughter

John Christopher of 818 South Jefferson street, has asked the assistance of the police authorities of this city in locating his daughter, Rose Christopher, missing from her home here since April 5, 1939.

She is described as being nineteen years of age, weighing about 125 pounds and being five feet one inch in height. Her complexion is dark and she was wearing a light coat, blue checkered dress, black shoes and light colored stockings when last seen. Her hair is dark in color.

Rotarians Elect Blairsville Man

(International News Service)
GREENSBURG, Pa., April 18.—D. E. Thompson of Blairsville was this afternoon elected governor of the 33rd district of Rotary clubs during the annual conference here.

He succeeds Harry T. Whyel of Uniontown.

EVENTUALLY—MABBE:
"Just when do you expect to be able to pay something on this bill?" demanded the collector.

"Well," replied Williams, "I have three more installments on the car and if, after I get them off, I don't have to pay for repairs or new tires, I may be able to give you something on it."

DRY CHIEF LOSES POUNDS IN JAIL

That the involuntary stay of Dr. E. S. Shumaker, 62, head of the Indiana Anti-Saloon league, on the penal farm, at Putnamville, Ind., for 53 days for contempt of court, may have a serious effect on his health is the fear of his friends and adherents in Indianapolis, since his return. Above, left to right, Dr. Shumaker before and after his incarceration. He is said to have lost 39 pounds.

McNary Offers New Farm Bill Before Senate

Farm Measure, Far Exceeding Hoover's Wishes Drafted By Senate Committee

EXPORT BOUNTY PLAN INCLUDED

(International News Service)
WASHINGTON, April 18.—A farm relief bill, far exceeding the recommendations of President Hoover and including the so-called export bounty plan, was introduced in the senate this afternoon by Senator McNary (R) of Oregon at the instance of members of the senate agriculture committee.

The export bounty or debenture plan was placed in the bill by McNary at the instance of western farm leaders. It would authorize the proposed farm board to pay the farmers of America a bounty on exported surpluses, in times of emergency, equal to the tariff on any particular crop. The provision has never received the approval of President Hoover.

The senate committee will meet Saturday to vote upon the bill.

NO KITCHEN PROBLEM IN SAN QUENTIN PRISON
(International News Service)
SAN QUENTIN PRISON, April 18.—There isn't any kitchen problem in San Quentin—not if all the men who say they are cooks can really cook!

A check of records today disclosed that all the prisoners who come to San Quentin, the biggest percentage give their occupation as cooks.

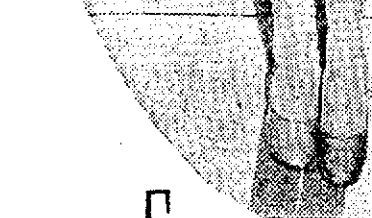

"However," elucidated a wise old guard, "there is nothing to stop a man from saying he's a cook. Also, there is nothing to stop us from sending him to the jute mill after his first batch of cannon-ball biscuits."

In other words—the average convict would rather do kitchen police than labor in the jute mill—so that's why there are so many cooks.

Next to cooks, they have an abundance of clerks at San Quentin, with machinists and painters ranking next.

NO BARE LEGGED GIRLS IN SPRINGFIELD SCHOOL
(International News Service)
SPRINGFIELD, Ill., April 18.—Sans stockings girls can't attend classes at Springfield high school no matter how warm the weather.

Announcement of the edict was coupled with a summons of all homeless girls to the principal's office. Two responded. One went home to get her socks and the other drew a pair from her handbag, donned them and returned to her classes.

When volcanologists warned the Hawaiian islands recently that a tidal wave 100 feet high was due to engulf the islands, virtually the entire population is reported to have fled to the hills. But two California girls, Helen Armstrong and Ruth Shanks, refused to leave the lowlands, preferring to stay behind to look after things while urging their friends to seek safety. The fact that the wave failed to materialize didn't lessen their bravery in the eyes of the islanders. Above, the pair snapped on their arrival in Los Angeles.

Industrial Stocks Shoot Upward Today

Dozen Or More Better Grade Industrial Stocks Advance In Price This Morning

By W. S. COUSINS
International News Service Financial Editor
NEW YORK, April 18.—The swing to higher prices on the movement of the standard industrials. A powerful pool was reported operating in Bethlehem with an objective at 150 for the current move, and the stock rose brilliantly to 115 for a 4 point gain on a heavy turnover. American Can finally topped 140 for a new gain of 3 points on advance of nearly 20 points on the move large blocks of Pan American B passed through the market at 63 and better, a new high for the year. Bulls in Radio Corporation also returned in full force

to the market today and forced the price of that stock above 101, for a gain of 5 points.

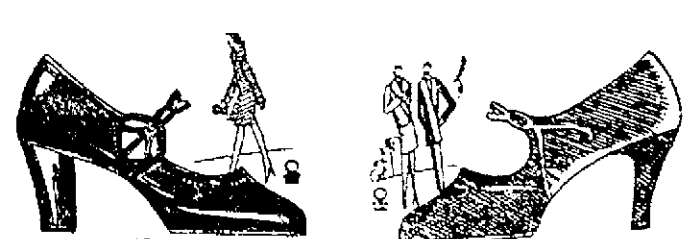

Many New Bills Before Senate In Morning Session

(International News Service)
WASHINGTON, April 18.—Topped by the much evaded re-apportionment bill, a long list of new bills were sponsored in the senate this afternoon at its brief session.

Senator Borah (R) of Idaho, reintroduced his resolution for the recognition of Russia. Borah has sponsored this measure at a half dozen previous sessions of congress but always without getting action on it. He announced he had little hope for approval of the resolution at this session.

Senator Jones (R) of Washington, introduced a new census bill to carry out one of the recommendations of President Hoover.

The Estimate of the Department of Commerce

All available facilities for manufacture could not produce more than 6,000 planes during the year, and that there will be a demand for from 8,000 to 10,000 planes making for a seller's market for at least the year ahead.

At the close of 1926 the first year of contract air mail our operations compared favorably with those of the eight year old transport. Alaska with only 500 miles of railroads and only a few hundred miles of improved highways finds the mail, express and passengers planes a boon in its fight against time and space.

Nearly 25 years have passed since the epochal flights of Wilbur and Orville Wright with the first practical airplane of many carrying size. From the dreams of centuries these brothers fabricated the airplane of actuality. Then the world was startled by the fact that man had merely flown. Today only a trans-oceanic flight rekindles the astonishment of more than two decades ago. Its application into civil life, argued and urged, by the pioneers has been achieved. The airways of the world show a greater mileage than did the railroads on their silver anniversary.

An extract from the Court of Appeals of the State of New York says in part, "Aeronautics today is the established method of transportation. The city that is without the foresight to build the port for the new traffic may soon be left behind in the race for competition. The dweller within the gates even more than the strangers from afar will pay the price for blindness."

With in the week a successful experiment in safety factors was accomplished, in California. A plane weighing 800 pounds was brought safely to the ground with a huge parachute device. Additional safety factors will be provided from time to time and it is but a matter of a short time that our traffic will be assuaged or safer than our present means of transportation.

The history of transportation is the history of civilization. Since the days when the first men shambled afoot through noisome jungles, through the long centuries when kings and peasants alike crawled along the ridge of the earth in creaking ox-wagons, down to the days when Stephenson invented the locomotive, and the automobile klaxon supplanted the clatter of horses' hooves, Progress and Speed have matched strides.

And then came the airplane! Today is the second anniversary of an auspicious day in the history of flying. Two years

ago a slim, grim young American dropped out of the fog of the North Atlantic and taxied into the glare of the beacons on Le Bourget Field — into the glamorous spotlight of a planet's applause. It's the spirit of the times. It's modern! Enterprising business men and commercial houses are "in the swing." Innovations follow one another with breath-taking rapidity—new ideas for bringing to you the latest merchandise, the latest news from all over the world. We are traveling fast . . . a city without an aeronautical enterprise is out of step with progress.

Contest Staged By Legion Auxiliary To Begin At Once

Membership List Divided In Two
Teams As Campaign Is
Started

ELLWOOD CITY, April 18.—A drive
for new members has been launched
by the members of the local auxiliary
of the American Legion and will be-
gin immediately. The membership list
has been divided and Mrs. Fred
Swanson and Mrs. R. Farrell were se-
lected as team captains. The candi-
dates have chosen the colors blue and
gold for their team names with Mrs.
Swanson leader of the blue and Mrs.
Farrell leader of the gold.

Much interest is manifested in the
contest and it is hoped that the so-
ciety may be able to double their
membership as the recent drive staged
by the Legion post has provided a
large list of eligible candidates for the
contest.

Bridge Club Is Entertained At Ewing Park Home

ELLWOOD CITY, April 18.—Mrs.
C. K. Morrow charmingly entertained
the members of her bridge club, Wed-
nesday evening at her home in Ewing
Park.

Bridge was the entertainment for
the evening and was played at two
tables. Mrs. O. E. Wick was awarded
the high score trophy. Bouquets of
tulips were used for decorations. At
a late hour, the hostess assisted by
Mrs. Charles Adams served a delicious
lunch.

Those present were Mrs. Harry
Mondereau of Meadville, a special
guest, and club members: Mesdames
Howard Stewart, Charles Stiner, Ernest
Mayer, Audley Cunningham,
Charles Adams, O. E. Wick, Monberg,
Nelson and the hostess.

The club will meet again in two
weeks.

GARDNER

Rev. F. M. Wagner will preach next
Sunday night at the East New Castle
mission.

Lucille Hunter of Gardner was an
overnight guest at the Shellenberger
home in New Castle on Sunday.

Norman Shaffer of Ambridge spent
the week-end at the home of his par-
ents, Mr. and Mrs. T. J. Shaffer of
Gardner.

Mrs. Lee Whitaker of East New
Castle spent a few days in Pittsburgh
with her son Rolland, who is a stu-
dent at Carnegie Tech.

Clinton E. Sankey, superintendent
of the Presbytery Baptist Sunday
school, above North Sewickley, will
preach next Sunday at Gardner
chapel at 2:30 p. m.

Mrs. Arthur Ferree and two chil-
dren from Youngstown came to Gar-
dner last Saturday and remained over
Sunday, visiting with Mr. and Mrs.
Gary.

Mrs. Walter Scott of New Castle re-
turned to her home last Sunday after
spending some days with her relatives.

of Gardner, last Sunday.

Miss Florence Schumaker of Gar-
dner, one of the teachers at the Bea
Franklin junior high school, has been
quite ill for a week with sore throat
and a heavy cold on her chest.

Rev. W. E. Minter, pastor of the
United Presbyterian church in Ell-
wood City, preached at Gardner
chapel last Sunday. Mrs. Minter
and Mr. and Mrs. Frank Porter and
daughter Esther of Ellwood City came
also to the services.

Rev. George M. Landis, pastor of
the First Baptist church in New Cas-
tle, gave the second stereopticon lec-
ture last Tuesday night at Gardner
chapel. As the weather was so unfa-
vorable both nights on which these
lectures were given, Mr. Landis will
repeat the pictures next Tuesday
night. Folks in Gardner are delighted
with these lectures.

Last Sunday three birthdays were
celebrated at the hospitable home of
Mr. and Mrs. C. B. Anderson of Gar-
dner. Mrs. Anderson's sister, Mrs. Eliza-
beth Guy of New Brighton, reached
her 77th anniversary, and the twin
sons of Mr. and Mrs. Anderson, Le-
ster and Wilber, reached their 31st.
Mrs. Guy was accompanied by her
son-in-law, Charles Cread, and by
her sister, Mrs. Johnson of New Bright-
ton, and the Anderson boys by their
families. It was indeed a happy
gathering and an occasion long to be
remembered by all who were present.

HIGH LIGHTS OF HISTORY

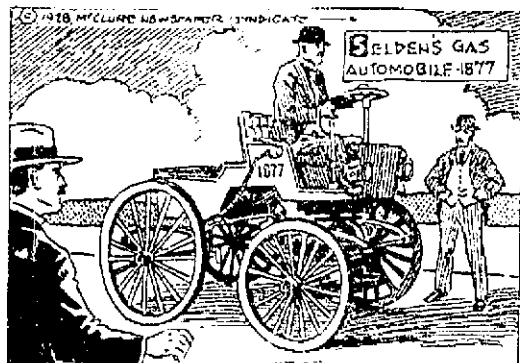

By J. Carroll Mansfield

America In The 20th Century
Early Automobiles

THE EARLY 20TH CENTURY WITNESSED THE COMMERCIAL DEVELOPMENT OF ONE OF THE MOST IMPORTANT FACTORS IN OUR MODERN LIFE. THE AUTOMOBILE. THE MOTORCAR OF TODAY HAS SPRUNG FROM A LONG LINE OF INTERESTING ANCESTORS. THE FIRST SELF-PROPELLING VEHICLE WAS INVENTED BY CUGNOT, A FRENCH ENGINEER, IN 1771.

EARLY IN THE 19TH CENTURY STEAM ROAD COACHES CAME INTO USE IN ENGLAND, AND WERE AN IMPORTANT MODE OF TRAVEL UNTIL 1825, WHEN THE BRITISH GOVERNMENT DECIDED TO PROMOTE THE BUILDING OF RAILWAYS. IN THAT YEAR THE STEAM COACHES WERE BARRED FROM THE PUBLIC HIGHWAYS.

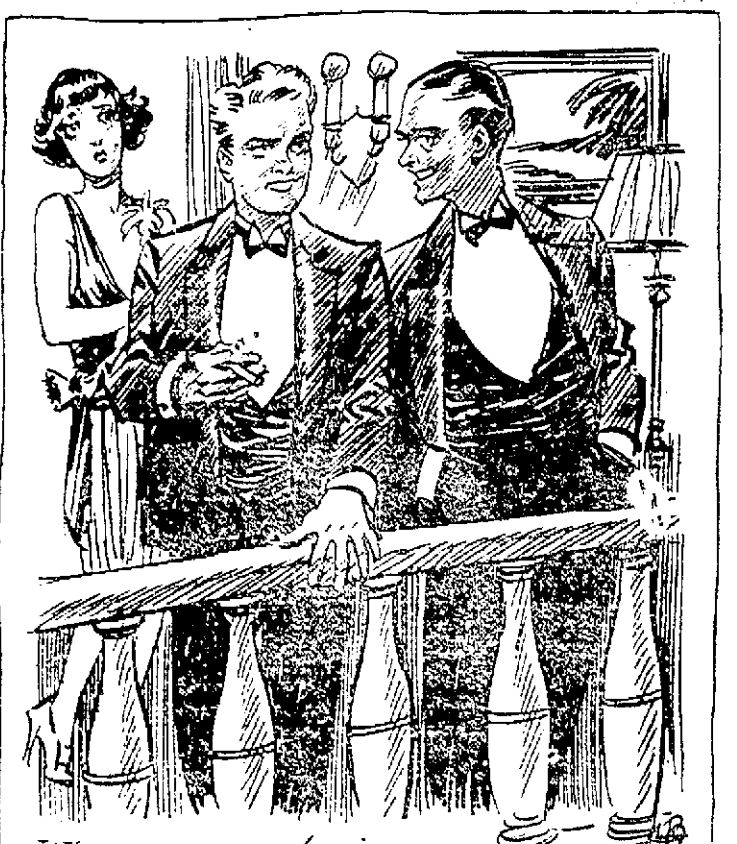

STEAM-DRIVEN WAGONS WERE BUILT IN THE UNITED STATES AS EARLY AS 1784, BUT WERE NEVER WIDELY USED. HOWEVER, EXPERIMENTS WITH POWER-DRIVEN VEHICLES CONTINUED. IN 1877 GEORGE B. SILDEN INVENTED A CARRIAGE PROPELLED BY A GAS ENGINE, AND IN 1895 WAS GRANTED A PATENT ENTIRELY COVERING THAT FIELD.

OTHER GAS-AUTOMOBILE MAKERS RAN AFOUL OF SILDEN'S PATENT, AND A LONG FIGHT IN THE COURTS FOLLOWED. MOST OF THEM SECURED LICENSES FROM SILDEN AND PAID HIM ROYALTIES. HENRY FORD, WITH A FEW OTHER MANUFACTURERS, KEPT UP THE LEGAL BATTLE. IN 1911 THE FEDERAL CIRCUIT COURT OF APPEALS DECIDED THAT FORD HAD NOT INFRINGED UPON THE SILDEN PATENT AS HIS ENGINE WAS OF A DIFFERENT TYPE.

NEW YORK, April 18.—Benny Holzman, one of the more enterprising exploiters, asserts that after nineteen years in and out of the theater, he amassed the following knowledge: "That critics may hurt a show a bit, but the worst of the lot is that roaster Humidity."
A successful producer is one who stands for what the public will fall for. The great American drama probably will be written by a Czechoslovakian.
The collaborator is a fellow who sometimes speaks to the author of the play when he meets him. In hot weather the second and third acts have to be good too.
Authors are born—that's the trouble.
Hitch your play to a star—if it has three bad acts.
All things come to her who waits at the stage door.
The angel of the show is the fellow who likes the girl, no matter who the author is.
The ticket speculator plays as important a part as the star.
The Play's the thing—if Leblanc wants it.
Uneasy sits the theatergoer who believes in an 8:15 curtain.

ing a new recruit to the Guild, although she has done nobly in the various Broadway temples for seasons. She is the fascinating and talented Miriam Hopkins, and you will adore her ingenuously and electric personality at the Beck. It is about time, too, that Miss Hopkins has finally associated herself with so worthy an organization as the Guild, where if you asked any of us who have groaned at most of the plays in which she has appeared she belongs.
Prantisek Langer, whose "Periphery" was done by the Reinhardt troupe last year, parented the play, and the Guild apparently enjoyed doing it as much as its premiere auditors, who laughed lustily. For the most part, however, it is better described as a pleasant and breezy comedy about a Cinderella discovered in the slums of Prague by a rich and bored young man, who eventually marries her, but not until the usual complications have been smoothed out.
The romance is fashioned for sophisticated, but the others will respond to it all breathlessly, too.

Seniors To Appear In "Her Step-Husband" On Friday Evening; Other News

(Special To The News)
NEW WILMINGTON, Pa., April 18.—The local Community House stage will be the scene of the production of "Her Step-Husband," a comedy to be staged by the members of the senior class of the high school Friday evening. The final practice and dress rehearsal of the amateur cast was held this afternoon.

Donald David, Gerald Newton, and Harriet Hartwell have the leading parts in the production while Doris Rohrbaugh will take the outstanding comedy role. Miss Mae McKelvey and Miss Lucille Beerbower are the faculty coaches for the comedy.

The student committee for the stage is headed by Thomas Hutchison and its other members are Nelson Greer, Richard McClure and Mary Herriot. Victor Smith and Collins Greer compose the finance committee. Work connected with staging and properties is being forwarded through the aid of Robert Jones and Theodore Anderson, two college students. Russell Sewall is acting as the student electrician.

The cast follows:
Harvey P. Marshall—Donald David.
Dr. Gerald W. Niles—Gerald Newton.

Limpny Lanigan—Howard Eagleson.
Officer O'Shea—Calvin Rose.
Mrs. Marshall—Harriet Hartwell.
Mrs. T. Allen—Katherine McClure.

Miss Catherine Elder Head Of Special Campaign At Westminster College

(Special To The News)
NEW WILMINGTON, Pa., April 18.—Under the direction of Miss Catherine Elder, New Castle, the Westminster College Y. W. C. A. yesterday started its annual drive for funds. Miss Elder is assisted by Cora Williams, Bedford, vice-president of the organization.
A goal of \$350, to be used in missionary work for summer conference expenses, and for the organization's share in the publication of the freshman handbook, has been set. The campaign will continue one week at which time it is hoped that the whole amount will be subscribed by the girls of the college.

Cutting Corners Too Fine?

Complete Bank Service Shows You How to Have a Cash Reserve

KEEP every penny earning" is a true but much abused phrase. Money can earn many valuable things besides interest. Using money to build your credit may often earn more profit than any other sound financial investment. Keeping a substantial cash reserve on hand frequently permits the taking of profits offered by quick-fire business opportunities. Usually these require "cash on the nail" with little or no time to convert securities. These chances for gain are more common just when other investments are difficult to liquidate.

Most men who have accumulated large fortunes, make it a practice in their personal and business finance to keep an adequate cash reserve for such opportunities.

Not the least advantage of surplus funds in your checking account, comes from the strength it adds to personal morale. A cash reserve brings a satisfaction, a feeling of familiarity with success, a confident physical bearing which have a definite money value to the user—for they give him a broader view point and show him an ever widening field for profitable activity.

Building up and keeping such a surplus immediately available is simple in principle, and not as hard to do as most people suppose. With the many demands on personal and business income, perhaps you think, "How can I keep a larger balance in my checking account? How shall I determine what the amount is to be?"

In most cases there is a way to build up a reasonable reserve of ready cash and without unpleasant skimping and scraping. Every day, your banker is in contact with hundreds of cases. Often, some simple adjustment opens the way to a new plan of personal finance, with greater freedom, more comfort and less irksome detail.

Your banker has helped many others find the way. In many instances the plan has proved to be the turning point to greater success. Use your banker more. Get acquainted with him and let him pass on to you the methods successfully used by others with financial problems just like yours.

"Cutting corners too fine," is a common stumbling block in the way of greater profits. A cash reserve is one solution and your banker will gladly cooperate with you in building it up. Talk with him today.

Progress Made In Organizing Cathedral Drive

Campaign For Refinancing
Big Institution Is With-
out Parallel Leaders
Say

WILL HOLD SCHOOL
FOR ZONE WORKERS

Scottish Rite Masons of the Valley of New Castle are organizing for their Cathedral debt re-funding effort with speed and thoroughness. Manager Herbert Pears of the Cathedral, who was made director of the campaign by the Campaign Cabinet three weeks ago, and who is widely known for the campaign he has conducted in this and other communities, believes that the present campaign is in some ways without parallel.

There are 6,455 Scottish Rite Masons in Western Pennsylvania who are members of the Valley of New Castle. These are spread over 269 towns and cities in 19 counties. In spite of this wide distribution, the Cathedral proposes to organize the 6,455 as completely as though they all were members of a single community.

Thirty Districts Organized
A community of interest among the members seems likely to achieve this impressive goal, Director Pears announces. Up to today 30 districts, comprising just half of the membership has organized themselves under the experienced supervision of the Cathedral staff. Each division, in charge of a zone officer is a law unto itself.

RELIEF FROM CURSE OF CONSTIPATION

A Battle Creek physician says, "Constipation is responsible for more misery than any other cause."

But immediate relief has been found. A tablet called Rexall Orderlies attracts water from the system into the lazy, dry, evacuating bowel called the colon. The water loosens the dry food waste and causes a gentle, thorough movement without forming a habit or ever increasing the dose.

Stop suffering from constipation. Chew a Rexall Orderly at night. Next day bright. Get 24 for 25c today. Go to the nearest Rexall Drug Store, Paisley's Pharmacy, Washington St. and Croton Avenue.

except that it undertakes to raise its percentage of the re-funding called for by the Cathedral's financial situation.

The period of organization, which will extend through the balance of this month, will culminate with a school to be held at the Cathedral for all zone officers and their committees. This school will last for two days, May 9 and 10. Its program will embrace the history of the Cathedral, analysis of its financing and maintenance, and other data concerning the finances of the present movement, by authorities on these subjects; the character and security of the new Cathedral debt re-funding securities, by financial authorities; the principles of modern organization and management, the psychology of group selling, and other matters by authorities brought to the school for this purpose; and other subjects necessary in achieving a perfect and successful campaign.

The 54 zones comprising the campaign will not over the top in five divisions, according to their degree and speed of preparation. The first or "Rainbow" Division will set out on the week following the school. It will comprise 16 zones. Succeeding divisions of a similar number of zones will follow week by week, with the final division, composed of the larger cities, completing the roster with campaigns in June.

New Castle In Final Division
New Castle will be one of the cities of the final division. A sales force of 30 teams, with a total membership of 150 will be created in this city. Contrary to usual campaign procedure, captains are being selected first, these captains to elect their own senior officers. Another unique feature of the campaign is the absence of any central officers or chairmen. The campaign in each of the 54 zones is a separate organization. The campaign aims further to avoid any resemblance of pressure upon prospects. Only members of the Masonic order will be asked to subscribe to the new securities. The purpose of the organization now being effected is the thorough education of the membership. The completion put on a member by his own sense of loyalty and identification with his organization will, according to Director Pears, be the only pressure used. "Another war of selective volunteering," says Mr. Pears.

Zones under organization to date, using as an index the zone city, are: Meadville, Hydesville, Jamestown, Greenville, Oil City, Franklin, Knox, Emontion, Fredonia, Mercer, Grove City, Harrisville, Slippery Rock, Volant, New Wilmington, West Middlesex, Rimersburg, Worthington, Bessemer, Mt. Jackson, Enon Valley, Mars, Evans City, Freedom, Midland, Alliquippa, Washington, Waynesburg, Ambridge.

Federal Government Should
Increase Funds

Road building needs in the country have advanced to the stage where congress should increase the present annual federal-aid appropriation of \$75,000,000 to a maximum of \$125,000,000, according to recent findings in surveys made by automobile associations throughout the country, states Bernard Hanlon of the New Castle Motor Club.

At present, states Hanlon, the policy of making these appropriations two years ahead of time means that imperative present needs cannot be filled. The regular session of the 71st congress will turn its attention to the appropriations of 1932 and 1933.

In support of the statement, Hanlon says that when the present act was enacted there were about one-eighth of the registered motor vehicles that there are today, and that state and local governments are expending stupendous sums at the present time than formerly.

Returning Tonight From Conference

Five or more New Castle Rotarians will return to this city from Greensburg tonight following the regular two-day spring conference of clubs of the 33rd Pennsylvania district, International Rotary. The meeting opened Wednesday morning and will end tonight following the customary governor's ball and reception in honor of Harry Whysel, present governor of the district.

Wives of the local men are accompanying their husbands on the trip.

Little Green Capsules Stop Rheumatic Agony

Prove It In 5 Days

There's nothing in the world that brings such quick and complete relief from the pain and misery that makes life almost unbearable as those tiny green capsules known from coast to coast as Allenburh Number 2.

More than one man and woman whom horrible rheumatism has been carrying down to helplessness—can testify to this.

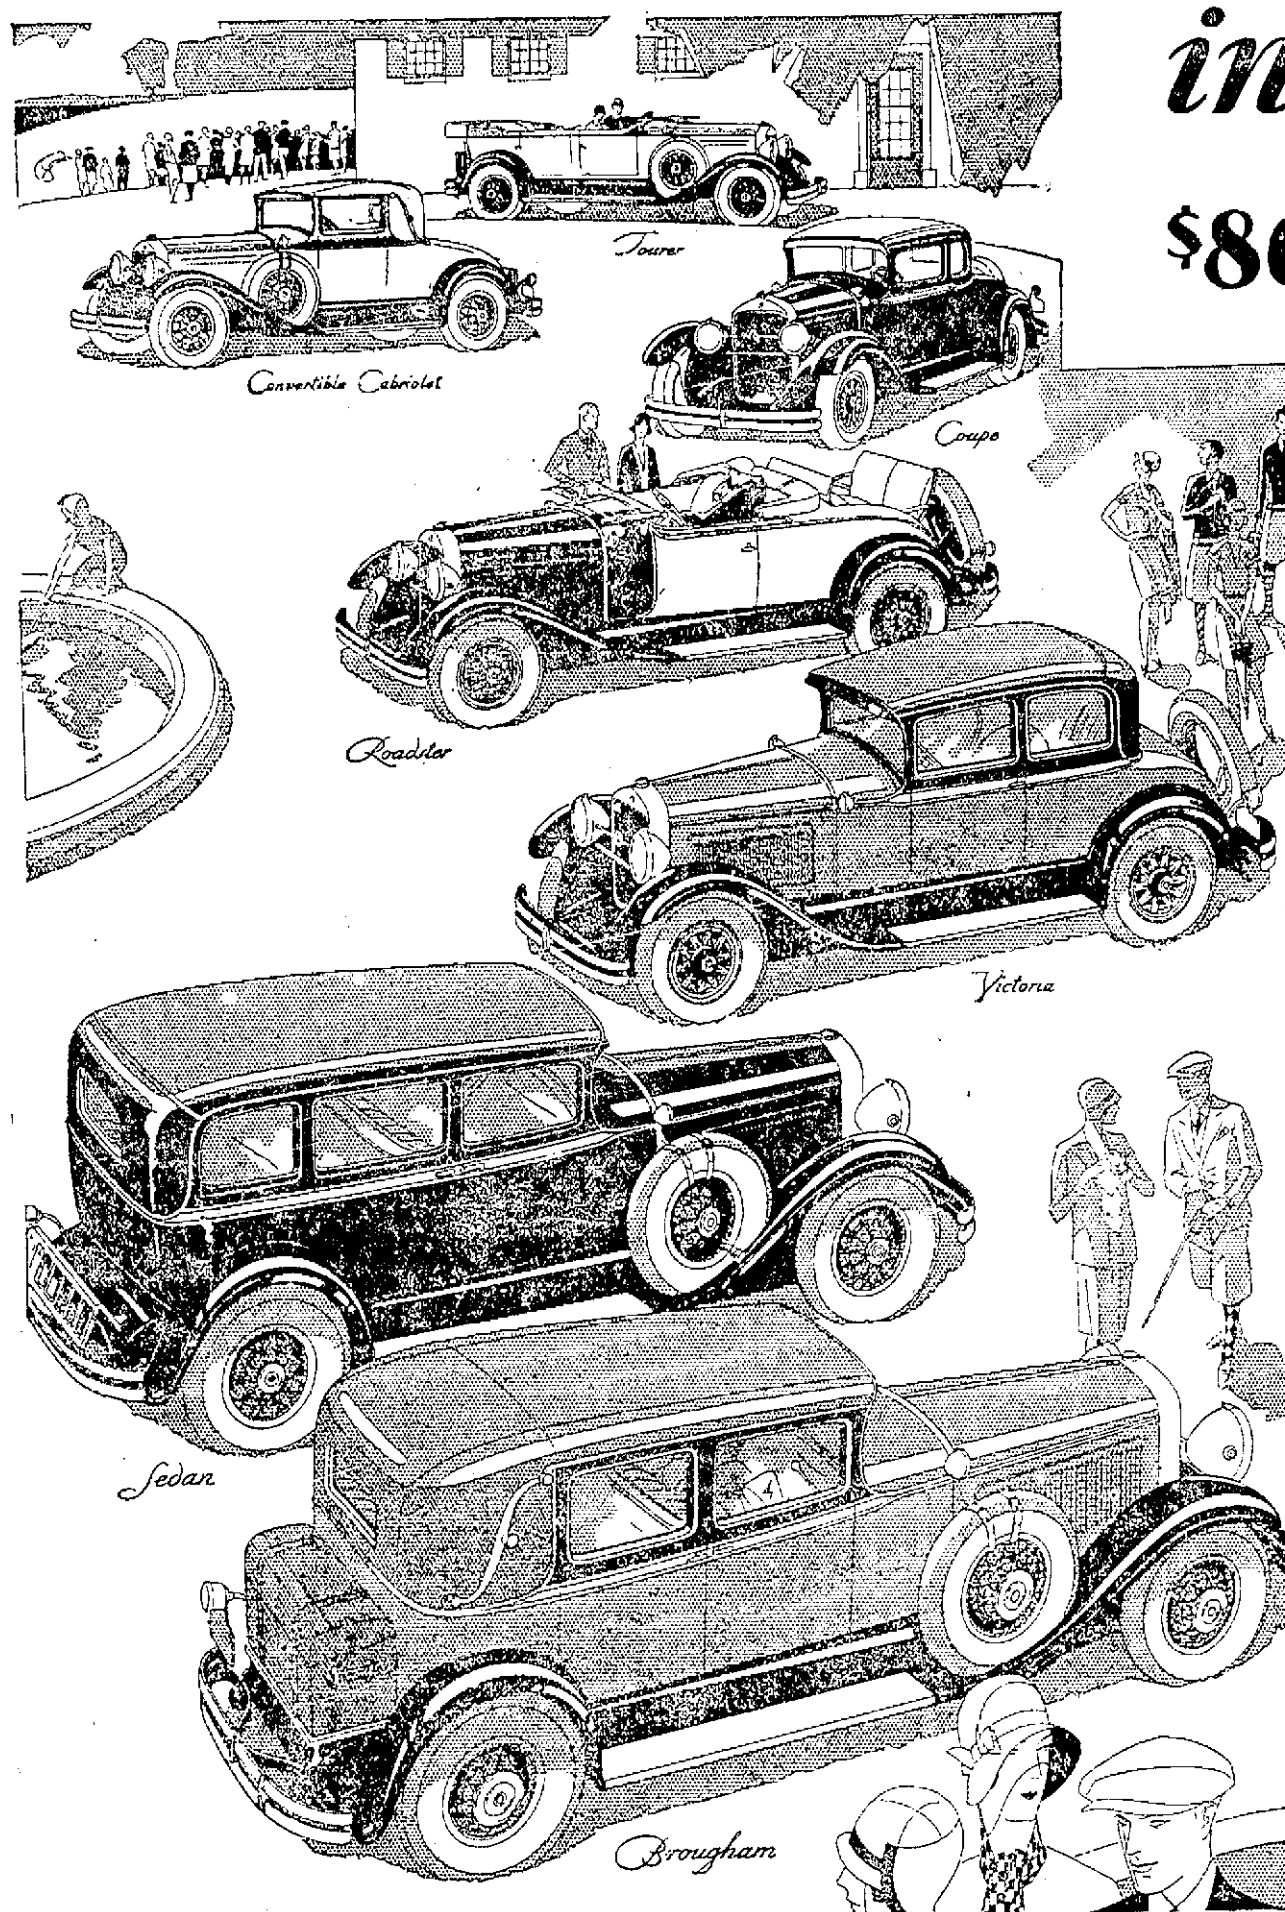

All you have to do is to take one tiny capsule each hour for the first ten hours; the next day one every two hours for 14 hours, then take as directed.

Remember it's "the little green capsule" that is turning the brick and bringing joy to thousands of Rheumatic sufferers, so insist on Allenburh No. 2.
McKee's Kute Rate Store, Eckerd's of New Castle, Inc. says these little wonder-working capsules must banish all pain and torture in 5 days or money cheerfully refunded.

John McGraw Would Swap With Phillies, Is After Thompson

McGraw Makes Overtures To Phils For Sensational Young Second Baseman

Bert Shotton Is Not Expected To Fall For Line Handed Out By Giant Owner

By DAVIS J. WALSH
International News Service Sports Editor

NEW YORK, April 18.—Maybe it isn't good cricket to be talking about a man behind his back but I think all the whistle-blowers ought to know that John McGraw probably is breaking one of the ten commandments so hard today that they won't be able to put it together again with a patent riveter. John is perfectly satisfied to let the neighbor have his wife but is doing a lot of first class coveting of that gentleman's goods and the reason I know this is that the New York correspondents, traveling with the Giants, are busy today telling their readers about the great things John can do for the Philadelphia ball club.

And what can the Phillies do for John? Just so, Wolgast, my boy. They can give him Fresco Thompson, their second baseman. They can but, unless I mistake their Mr. Shotton, I don't believe they will.

Native New Yorker. However, there is much dialogue being aired in New York about a Giant-Philadelphia trade, which means that John, the greatest man for overlooking a player he has been looking over, is back in his old time stride. He needed at least two looks at Roush and Groh, for example, and the second glance in each case cost him about twice as much as plenty. This Thompson not only was with the New York club between the setting of one sun and the rising of another several years ago, he grew up in the town and played a lot of high school baseball only a trolley car ride from the Polo Grounds.

Of course, this is being a bit harsh with our Mr. McGraw. He has turned up more than his share of big leaguers during the last twenty years but the fact is that when he muffs one, he does it so elaborately that everybody scores standing up. And by the looks of things, he muffed Thompson so badly that he will stay muffed.

Depends On Thevenow. For one thing, Shotton has only to wait until Thevenow recovers and he will have an infield without the necessity of consulting Mr. McGraw. For another, the recent history of trading between the New York and Philadelphia clubs has been like a water's shirt front—all one sided.

Sonny, McGraw, if you give the Phillies three or four bowlers and took Dave Bancroft. About the same time, he found he needed a right hand hitting outfielder and sent in another order of bowlers and took Irish Meusel. These magnificent transactions promoted John into four straight pennants and a major league record between 1921 and 1924.

Money talks. Perhaps it isn't necessary to say that, thereafter, that money became more familiar to a lot of clubs in baseball, even the Phils, nor is it exactly expedient to add that John hasn't won a pennant since. This might have been only a coincidence and, therefore, had nothing to do

with the fact that these one-way deals ceased to be. He certainly staked himself to none the better of things when everybody was all over the place over the McGraw and the Phils, through Mr. Shotton's good offices, agreed to accept Thompson. Nor did he do himself altogether proud in the O'Doul-Leach deal. In brief, I have come to regard Mr. Shotton as a very reliable man in the matter of taking care of Mr. Shotton.

However, now that we have lifted this load off the bosom, it is to be presumed that the deal will be wrapped up and delivered with the morning groceries. For Mr. Baker is another of those fellows who may be suspected of having a vulgar interest in money.

On Sunday, the Americans will go north to moortown, scene of the Ryder cup matches.

University authorities said the Giant tackle was not recovering as speedily as had been expected.

That Wilson—Hornsby Duel!

By QUIN HALL

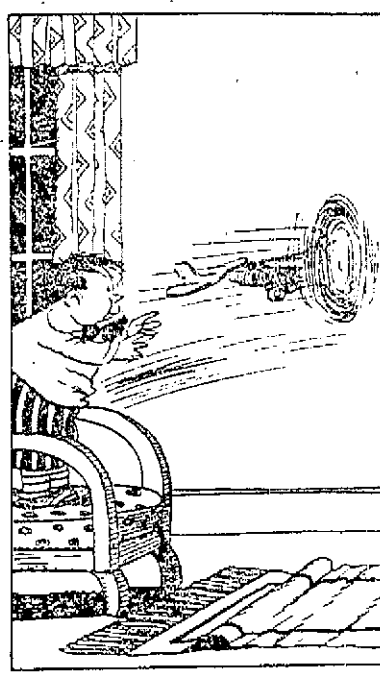

Hack Wilson, one of the slugging-outfielders in the national pastime, feels that the acquisition of Rogers Hornsby by the Cubs is going to be the means of boosting his own batting average higher than it has ever been before.

Wilson, you know, is on the same club with Hornsby, and while Hack has been a good performer in the past for Mr. Wrigley and his associates at Chicago, Hack has a hunch that this is going to be his banner year with the hickory post.

Hornsby, himself, if you recall is quite noted as a fellow who can slap the onion to and out of the four corners of the lot. In fact, Hornsby led the National League boys last season in the matter of hitting with .387, while Wilson turned in a fifty .313. In the matter of four-ply wallops, the Chicago slugger had it on the erstwhile pilot of the Braves in that he slapped out 31 circuit wallops while Rogers had to be content with a mere 21.

It looks as if Hornsby and Wilson are both on a winning ball club. At least, the early prophets are giving the Chicago team a great chance to cop. The idea of being on a club, which has a chance to cut in on the heavy dough in the World Series, stimulates the hitting prowess of a ball player. It's been known to almost make a slugging star out of a mediocre hitter. And it always makes a good hitter better. If this is true and if it works out in Chicago, both Hornsby and Wilson are liable to reach new heights. Personally, Wilson feels that being with a winning ball club and having Hornsby on the

GOLDEN BEARS TO VISIT NEBRASKA

Will Stop At Sidney Enroute To Game With Penn Eleven

(International News Service) UNIVERSITY OF CALIFORNIA, April 18.—Sidney, Neb., has been selected by Coach C. M. "Nibs" Price as the point where the University of California varsity football team will stop off for a workout on its transcontinental trip enroute to Philadelphia for the California-Pennsylvania game on October 19.

The Golden Bear special train, which leaves Berkeley immediately after the game with Washington State on October 12, is scheduled to arrive at Sidney at 3:30 p. m. Monday, October 14. The mayor of Sidney has offered the use of the Sidney athletic field, and the California special will be switched to a sidetrack close to the gridiron.

After a two-hour session on the Nebraska field, there will be a long jump to Washington, D. C., where the Bears will take their next practice Wednesday, October 16, on either the Georgetown university athletic field or the American league ball park.

Uhle Tames His Former Mates

Uhle On Mound For Detroit Gives Indians Pasting For Shunting Him Away

ATHLETICS GET JUMP ON YANKS

By LES CONKLIN
International News Service Staff Correspondent

NEW YORK, April 18.—The second guessers are riding Roger Peckinpaugh and Billy Evans out in Cleveland because of the comeback of George Uhle. Cleveland pitching ace who was traded to Detroit because his salary whip went lame last year. Uhle pitched the Tigers to a 15 to 3 win over the Indians yesterday, leaving Roger and Billy holding a large bag.

To make matters worse, Tavenner and Holloway, who came to Cleveland in the deal, were complete flops. Holloway, who has asked to pitch against Uhle to show that the Indians did not get stung in the trade, was knocked out in the second inning. Tavenner went hitless and made two errors to boot.

Averill Hits Another. The Cleveland fans found some consolation in the fact that Earl Averill, expensive outfielder from the coast, walloped his second homer in as many days. Veterans who also weighed in with circuit clouts were Hornsby, Grimm and Stephenson of the Cubs. Fox of the Athletics, Bottomley of the Cardinals and Clancy of the White Sox.

Hornsby's homer with the bases loaded and Hack Wilson's four hits featured as the Cubs slaughtered four Pittsburgh pitchers in a 13 to 2 landslide obtaining revenge for their inaugural day defeat.

Cincinnati also squared accounts with the Cardinals, Donohue winning an 8 to 3 decision over Sherdel.

The St. Louis Browns, thanks to their two pitching aces, are the first team to win two games. Sam Gray won on Tuesday and General Crocker tamed the White Sox yesterday, 5 to 3. Blue had a perfect day at bat with four hits.

Macks Get Jump. The supposedly crippled Athletics got the jump on the idle Yankees by murdering the Senator, 13 to 4. Jones and Braxton were knocked out, and Walter Johnson's managerial debut at Washington was ruined, the only redeeming feature being the feat of Ad Liska, submarine pitcher from Minneapolis, in holding the Mackmen hitless in the last four innings.

Indications were that fair weather would prevail for the twice-delayed inaugurals today featuring the "Yankees" vs. the Boston Red Sox at New York; the Giants vs. the Phillies at Coney Island; and Brooklyn vs. the Braves at Boston. If it rains again in New York, Miller Huggins will put Babe Ruth and the other Yanks to work building another ark.

Wolgast's Manager Replies To Davies

Lays Down Terms If Willie Wishes To Fight For State Title

By ED. FRITZ

Johnny Keyes, manager of Mid-gest Wolgast, last night telephoned from New York City that unless Willie Davies agrees to fight on a basis of 37 1-2 per cent to Wolgast and 12 1-2 per cent to Davies he will not permit Wolgast to participate in a battle for the championship.

Keyes said his ire had been caused by Willie's alleged criticism of the decision, which went to Wolgast. "If the thinks he can beat Wolgast, he ought to be willing to take 12 1-2 per cent of the 50 per cent purse," said Keyes.

HERE AND THERE IN SPORTS' LAND

By ED. FRITZ

The next pugilistic embroglio to be flushed before the fight absorbing eyes of New Castle fans will be staged by Andy Martin of Boston and Steve Smith of Bridgeport, Conn., but instead of throwing gloves next Monday night they'll strut in the bowl Wednesday, April 24. This was made necessary by the fact that Martin crossed up the local bowl when offered several thousand dollars to fight Eddie Shea.

Martin accepted a bout April 8 and confirmed by wire April 12. Along came Promoter Eddie Mack with a choice offer which put Martin in a hot scrap with Eddie Shea, Friday evening. Billy Henderson, his manager, figured thusly: "I'll get a thousand at New Castle and several thousand at Boston." Boxers are cunning though they wear cauliflower ears.

Billy said that he did not know Pennsylvania had a rule that a fighter could not participate in two main bouts within a period of five days. The bowl did not object to Martin getting the money; to be frank, we don't think Martin cared whether we objected or not. The proposition was put up to Commissioner Boyle and that genial gentleman said: "Tell Martin to go at the bowl Wednesday."

The heat of the Davies-Wolgast encounter is gone. All of us will agree they are nice sports. Neither could punch a foe to sleep. For speed they are race horses. Wolgast was given the decision. Some said it was correct, others claimed Davies should have won it and there are many who believe a draw was the best award. It was a toss-up any way one wishes to look at it.

While perusing the table of "How They Voted" we discovered a typographical error. Few noticed it, but it was there all right. It showed Judge McLaughlin calling the ninth and tenth even and also awarded them to Wolgast. The correct and official clip shows he gave Wolgast the ninth and tenth rounds. He gave the bout to Mid-gest. Ferris said "Davies and Red Robinson swung the bout to Wolgast."

That fight is history. Next week the fans will see boys who stand equally as high. Martin is apt to lose the decision to Eddie Shea but that won't mean anything here as Eddie has a habit of being able to lick most of the boys in the featherweight class. But fans who have read much about Martin want to see him and see they will next Wednesday night at the bowl unless he is knocked out.

Chicago has a good featherweight in Tony Herrera and it is possible he will appear here this summer. The writer would like to see Herrera and Johnny Datto fight, and the winner of the Smith and Martin bout must be the winner. Of course a battle of this nature would be a big time shot and would not come until June when the weather is so hot that the fans will want to sit in the open bowl.

Roy Minter certainly out-Wolgast-ed Mr. Long Sing Que, the laundryman, at the bowl. In other words Roy turned the tables on Mr. Johnny Keyes' protegee. Que didn't expect to be smacked around by a kid who stole Wolgast's style but that happened. The fans went wild. The Chinaman went good and anytime Minter, called "Whitley" though he's red-haired, is billed, he pleases.

A-hem! And two O-My-O's! Here's Elmo again, plaintive, pleading, anxious to win or lose. "Go grab one of those Would-Be-Big-Boys for me will you?" shouted Elmo to Sir Billy Jolly a few nights ago. "I'm rarin' to go against somebody who wants to be a fighter. I have had a good rest, my ear is fine, hands in good shape and I'm sure the fans will yell 'We want Elmo' when they see me."

Tommy McCafferty, who declares he is the only fighter in this section entitled to wear green tights, will make his debut next Wednesday with Charlie Wolfe of Columbus. Tommy is a 155 pounder with 40 fights beneath his gloves. He is from Fairmont, W. Va., and now under Jim Dime's banner. A lot of fellows wear Irish names but Tom is a real harp. He's training here now.

Talking about what a man's word means in the fight game, listen to this letter that just came in April 17, from Al Lippe: "Friend Ed: Andy Martin boxes Harry Bluffman in Boston (they substituted Shea) Friday night and I hope nothing happens to him as it would be a pity to get a substitute after you have gone to such trouble and expense.

"They offered me \$2,500 for Smith to box Shea. I am not built that way."

Costs Godfrey \$2,000 To Strut Stuff As Shiek

Dusky Philadelphia Maiden Says George Made Love To Her And Forgot About It

(International News Service) PHILADELPHIA, April 18.—"Big Gawg" Godfrey, known in fistic circles as the Black Panther of Leiper-ville, will confine his bouts in the future to the ring and not with Dan Cupid.

"Big Gawg" who was made defendant in a \$100,000 breach of promise suit a month ago by Rodina Nutter, 33, dusky 210-pound Sharon Hill belle, soothed the young lady's feelings with a check for \$2,000 Wednesday.

Rodina in her suit alleged that Hoeb Smith Williams, which happens to be Big Gawg's real name, proposed to her, became engaged and then broke her heart by repudiating the proposal.

"His hand gave him so much trouble he couldn't use it and Mike came along and they gave him the decision. I don't 'squawk' and never will but I just want to say this to you and I don't care about it being in the paper—Datto ought to have had the fight on a knockout." Jimmy wouldn't say these words unless he was telling the truth.

Henry Firpo tossed a big smile when he was called the "New Castle Favorite." The fans gave him a good reception. He will probably box in the show to follow the Martin-Smith battle. He will be put against the best boy the bowl can secure. Firpo has become a favorite with everybody, he meets. He is nothing more than a carefree boy who likes to fight and make friends.

Women's vogue for mannish underwear is expected to continue, according to style prognosticators.

Andy Kerr To Coach Colgate

W. & J. Releases Kerr From Contract And Colgate Grabs Popular Mentor

(International News Service) WASHINGTON, Pa., April 18.—The resignation of Andy Kerr as head football coach and athletic director at Washington and Jefferson College here today had been accepted by the athletic council. Kerr's resignation was effective immediately. He will become head coach at Colgate University on a three-year contract.

The first intimation that Kerr was to leave the institution where he has been turning out high-class athletic teams for the past three years was rumored yesterday afternoon. Last night the athletic council, hastily summoned, accepted the resignation, although expressing regret at his leaving.

The athletic council made no announcement as to the probable successor, although it was said a new coach must be employed quickly. Rumor has it that Herb McCracken, former Pitt star, and now coach at Lafayette, has an inside track for the job.

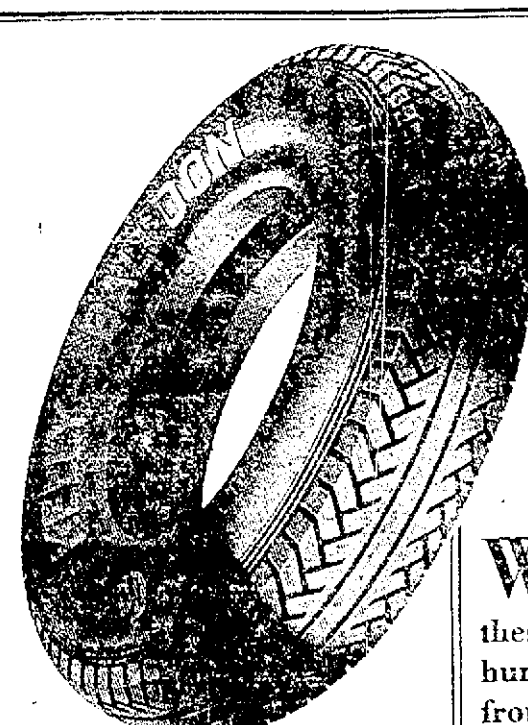

Kerr, in speaking of the Colgate offer, stated that it is simply a business opportunity. Colgate officials had made offers to him. Kerr revealed soon after Earl Abel resigned, "let them know how I was obliged to Wash-Jeff, as I had just renewed by contract with them." Kerr said.

It was said that regardless of how much it would have liked to have Kerr remain, the athletic council decided not to stand in the way of what appeared to be a distinct advance to the coach.

Army Athletes To Compete At Penn

(International News Service) PHILADELPHIA, April 18.—Athletes of the U. S. Military Academy will compete in 15 events in the annual University of Pennsylvania relay carnival here April 20-27.

Not only will the Army have men in the individual events but it will be represented by runners in most of the important relay contests, including the quarter, half-mile, two-mile and four-mile flat relay races and in the 480-yard shuttle hurdle. Individuals will compete in the pole vault, broad jump, high jump, javelin, hop, step and jump, high hurdles, shot-put, discus and 100-yard dash.

Kremer Wild As Hare; Cubs Win

Chi-Cubs Chalked Up Five In First And Win 13 To 2

HORNSBY CLEANS UP BASES WITH 'HOMER'

CHICAGO, April 18.—The Cubs yesterday took sweet revenge on the Pirates for the defeat on the opening day of the National League season when the chroniclers of the diamond pastime had finished counting the toll, Chicago had amassed 13 runs and the Pittsburghers two. During the set to three home runs were turned in, the first being credited to Stephenson, Grimm and Hornsby.

Perce Malone twisted a magic hand apparently as the Pirates found his delivery for only six hits while Chicago cracked out 15 hits off Kremer, Swetonic, Russell and Brame. Kremer lasted four innings, Swetonic two. Russell went only 1-1-3 and Brame wound up the game with two-thirds of the last inning to play.

Bases Filled.
The home run turned in by Hornsby came when the bases were filled in the eighth inning and it offset something rather embarrassing which happened a little earlier when the demon slugger whiffed the air with the pathways congested. Steve Swetonic turned in the strikeout as he made his big time debut.

Hack Wilson, formerly of Ellwood City, slammed out four safe blows, a pair of which were doubles. Stephenson's homer sent two runners in ahead of him but Grimm uncorked his marathonic crack when the paths were empty. Kremer pitched as wild as a hare runs and before he could collect himself Chicago had five runs.

That happened in the first inning and Chicago was held without additional tallies until the third and by gradual blows and better baseball had 13 runs when the last of the eighth was over. The Pirates got their only two runs in the ninth when they were credited to Grantham and Bartlett.

GENEVA READY FOR DUAL MEET

Covenanters Will Tackle West Virginia At Morgantown On Saturday

BEAVER FALLS, April 18.—The cold, wet weather has forced Coach Parks of the Geneva College track team to hold some lengthy practice sessions in order to get his men in shape for the dual meet with West Virginia on Saturday at Morgantown. Geneva's squad of men expect to arrive in Morgantown at 11:30 Saturday morning. The trip will be made in automobiles.

The following men will make the trip: Thomas, Smith, Brooks, Nave, Latham, Preece, Nulton, Wilson, Lyle, Fort, Baird, Shupe, McLean, Merriam, Paulsey, Davis, Friedman, Wilcox, Ranson, and Ward.

The Covenanters are expecting to give the Mountaineers a run for their money, although the chances of a Gold and White victory are extremely slim. Geneva will show strength in the hurdles, the middle-distance races, the javelin, and the high jump. Outside of these events it is expected that the Covenanters will garner very few points. Friedman can almost be counted on to take a first in the 177 American bred class and took fourth in the novice class. Bert Swann, Hamilton, Ont., was the judge.

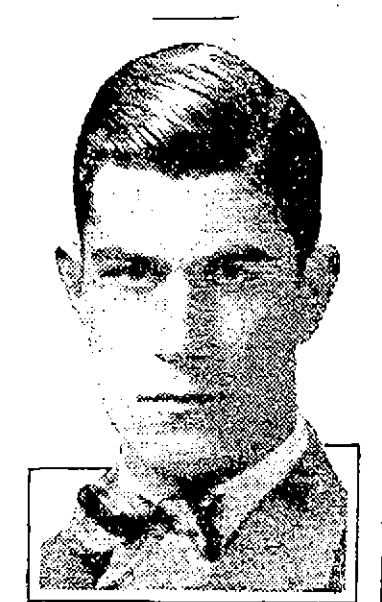

According to reports from the Cleveland show, where all the best bulldogs were exhibited, the fourth place in the novice class was really better than the two firsts in the other classes, as every person had their dog in the novice class. The field approximately was a secret.

Bert Swann, the judge, declared that if Malone had a remarkable dog, and that its chief fault was that it was so small.

The showing of Silent Miss Lindy therefore was remarkable, inasmuch as Cleveland is the greatest bulldog center in the United States, and Silent Miss Lindy was up against classy opposition.

It must be awful to be famous and have to sneak out behind the barn to use a brand you haven't endorsed in a testimonial.

Football Leader Out For Track

Russell Boone

(Special To The News)

NEW WILMINGTON, Pa., April 18.—Russell "Chappie" Boone, captain-elect of the varsity football team at Westminster, is a member of the United Presbyterian track squad which is working out daily in preparation for a stiff season.

Boone won his letter in track last year in the hammer throw and javelin throw. He played basketball all winter as a member of the Delta Psi Sigma team in the intra-mural league.

In addition to his ability in football, basketball, and track, Boone is an excellent swimmer and diver and is a good wrestler.

GIRLS PLAYING VOLLEY BALL

Something new in the way of volleyball has begun at the Ben Franklin Junior High School with girls physical director Miss Muriel Findlay in charge. To date a number of games have been played which were close and hard fought.

Each report room of the junior high school plays the team of another report room continuously as long as the team wins. At the end of the season two teams will be chosen with 15 players on each team. Then there will be an all star game between these two teams. Girls who have played the best will be placed on these teams.

Captains for these different teams have been appointed after considering leadership, scholarship, and good sportsmanship. Evelyn Jewel has been appointed as captain of the Blue team with Stella Niemczyk as captain of the Red team.

Salo Wins Race To Knightstown

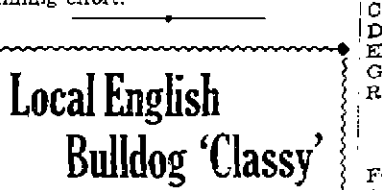

KNIGHTSTOWN, Ind., April 18.—Johnny Salo, living east of Passaic, N. J., led the C. C. Pyle pack of transcontinental runners into Knightstown shortly after 1 o'clock Wednesday afternoon.

Salo made the 34 miles from Richmond, Ind., in 4 hours and 25 minutes. Salo's total time for the 789.8 miles from New York is 123 hours, 27 minutes and 27 seconds.

Turf Writers Say Horse Was 'Charged'

NEW YORK, April 18.—Turf writers in Maryland have launched a whispering campaign that Le Bey, the French horse which started spring season so impressively was fueled by something more than horse power when he won his first two races. The specific charge is that he was served with about 22 fingers of wine before each winning effort.

Local English Bulldog 'Classy'

SILENT MISS LINDY

Speaking of English bulldogs and A. H. Gilmore's recent trip to the Cleveland show, it might be said that Silent Miss Lindy of the Amo kennel won first in the limit class, first in the American bred class and took fourth in the novice class. Bert Swann, Hamilton, Ont., was the judge.

According to reports from the Cleveland show, where all the best bulldogs were exhibited, the fourth place in the novice class was really better than the two firsts in the other classes, as every person had their dog in the novice class. The field approximately was a secret.

Bert Swann, the judge, declared that if Malone had a remarkable dog, and that its chief fault was that it was so small.

The showing of Silent Miss Lindy therefore was remarkable, inasmuch as Cleveland is the greatest bulldog center in the United States, and Silent Miss Lindy was up against classy opposition.

CHICAGO HOPES TO REPEAT WITH DERBY SUCCESS

By COPELAND C. BURG
International News Service Staff Correspondent

CHICAGO, April 18.—When Reigh Count, owned by Mrs. John Harte, wife of a Chicago taxicab magnate, won the Kentucky Derby last year, Chicago bettors made a mighty clean-up; they hope to repeat this spring at the 55th running of the Churchill Downs classic on May 18, and the Chicagoan's money choices are two western colts, Blue Larkspur and Clyde Van Dusen.

Blue Larkspur is a product of the Colone, L. R. Bradley's Idle Hour farm in the bluegrass country of Kentucky, while Clyde Van Dusen, although owned by Herbert P. Gardner of Amsterdam, N. Y., was foaled in Kentucky and is generally looked upon as a western entry.

Two Good Ones.
Both Blue Larkspur and Clyde Van Dusen are reported training perfectly for the big race and are in excellent condition. The Bradley entry probably will be first choice among Chicago bettors. Colonel Bradley has long been a good friend of his followers, returning several Derby winners. In 1926 his Bubbling Over won the classic and Bagenbaggage, also owned by Bradley, was second. In 1921 Bradley's Behave Yourself was first and his Black Servant took second money.

Twink is regarded by many turfmen as the most solid horse in the eastern contingent. This imported colt in the Loma stable of Mrs. L. G. Kaufmann of New York was a stellar performer last year and this season is reported training in most satisfactory style. Only one imported colt has ever won the Derby, Omar Khayyam, in 1917.

High Strung Ready.
High Strung, owned by Robert L. Gerry, is rated the equal or superior of Twink on past performances. Last year this entry started six times and won five races, being unplaced in the other.

High Strung won more than \$153,000 in 1928 races, including the winning of the Futurity stakes, Belmont, Oceanus Handicap, Jamaica and the Pimlico Futurity.
Dr. Freeland, Roquist Eye and Karl Etel are other early favorites.

BOYS' GAME

It is not often that the pin boys of the different alleys get a chance to compete in bowling. Mostly their duties consist of working while the bowlers roll the balls and tumble the pins, and many a youngster who works for his bread and butter goes home with an aching back. However, the pin boys of McCoy's and the Castle clashed at the Castle and the Castle lost. Franch was high with 447 for three games.

Visit GENERAL MOTORS SPRING SHOWING

The New VIKING EIGHT The 1929 OLDSMOBILE SIX

PRODUCT OF GENERAL MOTORS

The new Viking—just announced—is one of the principal attractions of the General Motors Spring Showing.

A product of General Motors, built by Oldsmobile—it brings to the medium-price field the advantages of 90-degree V-type eight-cylinder design. Its fleet, low lines and graceful proportions are the most recent expression of Fisher designing skill.

Remarkable performance results from the new 90-degree V-type eight-cylinder engine, which delivers 81 horsepower with exceptional smoothness throughout the entire speed range, and remarkable response to the throttle. The wheelbase is 125 inches.

We invite you to inspect this illustrious new car during the General Motors Spring Showing—to take it for a trial drive—and to judge it by your highest standards of appearance, performance, and value. Then you will appreciate that the introduction of the Viking is a significant event in automotive history.

See this finer Oldsmobile during the General Motors Spring Showing, April 20th to 27th. Compare it with other cars. Drive it, and make your own performance tests. And you'll agree that you can't match its value at its new lower price.

25 Schools Are Registered For Meet At Geneva

Special Events Are Listed For Smaller Schools In Class B.

BEAVER FALLS, April 18.—Preparations for the Geneva College Interscholastic Meet to be held on April 27th at Reeves Stadium are nearing completion, and Athletic Director Edgcombe is expecting the meet to be one of the most successful ever staged at Reeves Stadium.

The schools entered in the meet are divided into two divisions, Class A and Class B, according to the enrollment of the schools. Class B schools will be eligible to enter in all races in which Class A schools are listed, but there will be three special events for Class B schools, namely, 100-yard dash, 440-yard dash, and the One Mile Relay. Points scored in the special events will not count in the scoring for team and individual point scoring honors.

Medals of gold, silver and bronze will be awarded to first, second and third positions respectively in every event except the relay race. In case of ties for any position each person shall receive a medal.

Plaques will be given to the schools winning the mile relay races. A beautiful loving cup will be awarded to the team scoring the highest number of points, and another cup will be given to the individual registering the highest total of points. The points will be scored as follows: 5 points for first place; 3 points for second place; 2 points for third place; and 1 point for fourth place.

Over 25 schools have sent in entries for the meet, among them some of the leading schools of Western Pennsylvania and Ohio.

Athletic Director Edgcombe is anticipating fair weather and a large turnout.

Booster Club Talks Progress

Enthusiastic Meeting Is Held At City Council Chamber Wednesday

NUMEROUS PROJECTS GIVEN CONSIDERATION

Meeting of the Booster club held last night at the city council chamber was well attended.

Featuring the meeting was the communication of the Federation of Women's clubs showing that organization and its affiliated organizations to be in accord with the proposal of the club, that the merchants and business houses of the city be patronized, instead of those of other cities, the address of George B. Hart, who told how it might be possible for the organization to build this city up to what it should be; action was taken by the organization as a whole to assist in the furnishing of the Jameson Memorial hospital and the discussion of the needs and problems of this city.

W. E. Ferver presided, while Paul Griffith was in charge of the secretarial work of the meeting and organization.

First matter of business up for consideration was that of communications received by the Boosters club.

To Buy at Home.

This brought to the attention of the organization the communication of the Federation of Women's clubs telling how the members of the various organizations affiliated with it were in accord with the effort to boost New Castle and containing a copy of the letter sent out to the various affiliated organizations and their members, which were to be signed and returned, pledging the signers to buy as far as possible from only those merchants

who are taxpayers and who are interested in the advancement of the city and are willing to lend financial support to the cause.

When the meeting was thrown open C. L. McMillen suggested to the assembly that there had always been considerable agitation for additional parks and recreational spots and that in his estimation there was an ideal spot for a small park and rest place on the old cemetery property on East Washington street, purchased by the city some time ago for the eventual opening of Cunningham avenue thru to Washington street. He said that if the bill boards gracing it at the present time were removed and a few benches placed in it, that it would make one of the finest parks in the city, although it is small.

The club responded very favorably to the suggestion and voted that the matter should be taken up with city council at once. It was announced that Herbert Peairs, chairman of the civic committee, was unable to serve actively at this time and Robert M. Hainer, vice chairman, agreed to act as chairman temporarily. The civic committee is to take the matter of the removal of the billboards and the establishment up with council.

Money Essential.

Frank Andrews, chairman of the program committee, then introduced George B. Hart as the speaker of the evening.

Mr. Hart said among other things "I like the spirit of the Booster club. It gives everybody a chance to express themselves. But it will take money to run such a proposition.

"The city has been running back and it will take money and time to put it back where it belongs. I would say that a million dollars would be about the right amount.

"How will you raise the money, you ask. Well, I consider the real value of New Castle at from 300 to 500 million dollars and the rest of the country at a like amount. Seems to me that a million dollars would be a small amount to raise in a community with such wealth as this and for its own benefit.

"I would suggest ten years to raise the amount. Raise \$100,000 a year. Use this money in advertising New Castle, in getting its name and fame

broadcasted throughout the United States. The second year should find it easier to raise this hundred thousand dollars than the first and each succeeding year it should be still easier.

"This money will have to be secured from the moneyed people and from the banks, which have plenty of it. Our property valuation should be good enough security to put up for it. Do this and in 10 years your city will have at least 25,000 and possibly more additional people.

"The co-operation of the city council and the county commissioners is necessary to make this a success. Get a thousand members of your organization and they will listen to you and do things not now even contemplated.

"In the greater expansion of the city we should broaden out in all directions. We ought to take in all those surrounding sections. If we are going to grow we should.

"Another thing. Let's have business meetings instead of banquets in this organization. It should be a business organization. Why should we need outsiders to tell us what to do? Let's do it ourselves.

"With the wealth at hand, plenty of acreage, let's encourage industry in every way.

To Aid New Hospital

Chairman W. E. Ferver, following the address of Mr. Hart, drew attention to the fact that most every civic organization in the city was assisting in furnishing a room at the new Jameson Memorial hospital and suggested that it would be a good move on the part of the Boosters club.

Charles Colner made a few remarks, as did L. Schmidt and others, advocating the advisability of such a move. It was suggested that it be referred to the civic committee for recommendation. Thomas Cunningham suggested that it would be better to place it in the hands of a special committee and the organization voted that it should be turned over to a special committee. Chairman Ferver stated that he could announce the committee in a day or two.

Thomas Cunningham suggested that the civic committee get in touch with the committee of citizens who are planning to enlarge the grounds in the vicinity of the new hospital for park purposes and beautifully the same and assist in every way. Such instructions were given the committee.

He also suggested that the industrial committee get in touch with the Hawk Battery Company and find out what can be done to further the interests and use of the Hawk batteries in the city and elsewhere. The committee was so instructed.

Frank Haydon, shipper of molding sand in considerable quantities from this city, suggested that what this city needed was a traffic manager, who could assist in getting better freight rates for this city. He said that since July 1, 1927, this city has been in the Youngstown instead of the Pittsburgh rate district, which is a big detriment. He cited various rates to illustrate this. He said that the solution of this city's problem industrially was to forget the Erie canal and think of a canal from this city to the Beaver river, which would cost about \$10,000,000.

L. Schmidt recommended that the business houses, industries and individuals of this city use envelopes on which there was printed data concerning this city, and this was received with enthusiasm and referred to the publicity committee for action.

This brought out a discussion of the small proposition and the discussion showed that little real activity had been practiced recently in the matter, and Chairman Ferver announced that this matter would be brought to the attention of the publicity committee.

Immediately following the adjournment of the meeting a meeting of the broad and publicity committees was held and matters of importance considered.

Paul Griffith, the secretary, stated that the actual enrolled membership of the club was 250, and that he had on hands membership applications for approximately that many more. The membership drive will be continued.

Prescription He Wrote in 1892 is the World's Most Popular Laxative

When Dr. Caldwell started to practice medicine, back in 1875, the needs for a laxative were not as great as they are today. People lived normal, quiet lives, ate plain, wholesome food, and got plenty of fresh air and sunshine. But even that early there were drastic physics and purges for the relief of constipation which Dr. Caldwell did not believe were good for human beings to put into their system. So he wrote a prescription for a laxative to be used by his patients.

The prescription for constipation that he used early in his practice, and which he put in drug stores in 1892 under the name of Dr. Caldwell's Syrup Pepsin, is a liquid vegetable remedy, intended for women, children and elderly people, and they need just such a mild, safe, gentle bowel stimulant as Syrup Pepsin.

Under successful management this prescription has proven its worth and is now the largest selling liquid laxative in the world. The fact that millions of bottles are used a year proves that it has won the confidence of people who needed it to get relief from headaches, biliousness, flatulence, indigestion, loss of appetite and sleep, bad breath, dyspepsia, colds and fevers.

Millions of families are now never without Dr. Caldwell's Syrup Pepsin, and if you will once start using it you will also always have a bottle handy for emergencies.

It is particularly pleasing to know that the most of it is bought by mothers for themselves and the children, though Syrup Pepsin is just as valuable for elderly people. All drug stores have the generous bottles.

Ladies of New Castle to Receive Carnations Free—Attending the Opening of the Mighty Vitaphone—Movietone

The management of the Capitol theatre will have a treat for every lady patron attending The Capitol matinee and opening, next Monday, of the world's greatest talking picture apparatus, the Vitaphone and Movietone.

The second all-talking motion picture in the history of the screen will be seen at the Capitol theatre. "The Terror," Warner Bros' Vitaphone special, begins a run of six days.

In "The Terror" even the title of the picture is announced by Vitaphone. Every line in "The Terror" is spoken, but it is not only the dialogue that is synchronized. Throughout the picture the audience hears all sounds which naturally occur during the progress of this ghostly mystery drama—wailing of winds, shoes in the dark, weird playing of an organ which stands by itself in an underground chamber of the gloomy old manor house, blood-curdling cries for help, and mocking laughter.

The all-star cast includes May McAvoy, Louise Fazenda, Edward Everett Horton, Alec B. Francis, Holmes Herbert, John Miljan, Matthew Betz, Joseph Girard, Guy Hoffman and Frank Austin. Rein Del Ruth directed "The Terror." Harvey Gates made the screen adaptation from the play by Edgar Wallace.

Murder Suspect Captured Today

Murder Suspect in Silk Mill Robbery Is In Custody; Police Chief Slain

(International News Service)
PHILADELPHIA, April 18.—Ernest C. Stabler, 29, of this city, an ex-convict, was seized in a Brooklyn pool room early today as a murder suspect in connection with the \$25,000 silk mill robbery at Hamburg, Pa., on May 12 last when Chief of Police Wilson Lewars of Hamburg was shot and killed.

Stabler, police say, served a term in the Eastern penitentiary.

He was seized by New York detectives led by Lieut. Raymond Honan after 100 other spectators in the pool room were cowed with pistols. Lewars was killed when he and a patrolman surprised seven bandits looting the Paterson silk plant.

MADRID WOMEN ARE NOT OLD FASHIONED

(International News Service)
MADRID, April 18.—The women of "old Madrid" are by no means old-fashioned these days.

Twenty-year-old Senior Pilar Crago, pretty student at the School for Engineers in the capital, recently drove the Madrid-Giljo express train over three hundred and fifty miles of winding and dangerous road. The passengers behind her said it was the smoothest run they had ever made on the line.

The great need of airplanes and flappers is the ability to keep a mind up in the air without so much speed.

The chief objection to treating a guest like home folks is that he might get mad and retaliate.

Hindenburg Presented With Japanese Sword

(International News Service)
TOKYO, April 18.—As a token of friendship between Japan and Germany a rare Japanese sword will be presented to President von Hindenburg by Ringi Ikeda as a representative of Hochi, a Tokyo newspaper. The sword, ornamented with gold, is a work of the famous sword maker, Bizen Yoshikane.

While in Germany Mr. Ikeda will make arrangements for the international athletic meet between Germany and Japan which will be held in Japan next May under the auspices of the newspaper. He is going to Berlin via Siberia.
